### Release of Funds for Assistance of Old Expected Soon

Will Be Ordered When  
Illinois Assembly  
Passes Bills

Springfield, Ill., June 25.—(AP)—Nearly \$1,800,000 in old age assistance funds which were ordered help up by the Federal Social Security board last week because of the legislative filibuster will be released today if the general assembly passes two bills to bring the state's pension system into line with federal regulations.

H. L. McCarthy, regional social security board director, said that he expected passage of the bills today and added that he would wire Washington to release the funds as soon as the measures are sent to Governor Green.

Distribution of July old age assistance checks to some 145,000 recipients in Illinois will be delayed "only a day or two" because of the federal order withholding funds, McCarthy said. Payment of the federal grants, which match state funds, was ordered suspended last week when the five-day filibuster threatened to kill the proposed amendments.

The bills required by the social security board established a new merit system for selection of administrative employees and new regulations for keeping of old age assistance records.

Many Bills Killed  
Meeting in the midnight hours in an effort to conclude the legislative session by the end of the week, the house early today summarily killed 55 bills, including anti-vote fraud legislation sought by Attorney General George F. Barrett and an administration-backed bill to revise the state civil service system.

The measures were abruptly killed at the end of an after-midnight session when Rep. Peter C. Granata (R-Chicago) moved to table all house bills remaining on the calendar. Some of the sponsors of the 55 remaining bills protested but the legislation was swept away by a voice vote.

Two hundred senate bills remain on the house calendar while an estimated 100 other bills are awaiting action in the senate.

The administration's civil service revision bill would have permitted discharge of civil service employees without first conducting hearings before the civil service commission.

The anti-vote fraud bills which also died were asked by the attorney general to tighten up regulations governing counting of votes and the conduct of election officials.

Other Bills Killed  
Other bills which were killed sought to double the size of the 350-man state police force, prevent Chicago from extending daylight saving time into October, require "full crews" on railroad trains, levy a three per cent tax on oil imported into the state and to require strip mines to replace soil excavated in mining operations.

### Nearly 500 Babies Register for Show

Babies with blonde curls and blue eyes, babies with black curls and black eyes; babies, babies and more babies found their way into the baby department of Kline's Department Store yesterday morning to register in the Prize Baby Show and Welfare Pageant being conducted here by the Veterans of Foreign Wars Auxiliary.

Before noon, nearly a hundred babies had been registered and by 5 o'clock nearly two hundred had entered their names in the baby show. The age limit was under five years and the youngest baby registered was Ronald the three-weeks-old son of Mr. and Mrs. H. A. Zoeller of Dixon.

Arrangements are being completed for the physical examinations of all the babies registered in the show. The babies will be examined on height, weight, posture, musculature, skin, heart, lungs, nose, head, scalp, skin, eyes, ears, glands, mouth, teeth, adenoids, tonsils, genitalia, back, abdomen, arms, hands, fingers, legs, feet and deportment during examination.

The baby show office is now located in the Woodman Hall, 107-1st street. Mothers will be notified through the mail regarding their baby's physical examination.

### Guards Stimson

LT. COL. SHERWOOD DIXON

Dixon soldier in command of the Second battalion, 129th Infantry, 33rd Division, U. S. A., which was the guard of honor for Sec. of War Stimson when the war department headquarters at Manchester, Tenn. today. Details below.

### Dixon Soldier In Charge of Honor Guard for Stimson

Five hundred Illinois National Guardsmen, members of the Second battalion of the 129th Infantry, 33rd Division, commanded by Lieut. Col. Sherwood Dixon of Dixon, now in federal service at Camp Forrest, Tenn., were chosen as the guard of honor for Secretary of War Henry L. Stimson, who was scheduled to arrive at Second Army headquarters, Manchester, Tenn., this afternoon to witness the last phase of the June war games.

Lieut. Col. Dixon's detachment was scheduled to meet Secretary Stimson, who was to fly from Washington, D. C., in an army plane, at the Manchester airport and escort him to the Second Army's headquarters in the Manchester high school building.

Must Type Questions  
An example of the present governmental tendency to clamp down on publicity was seen in the 2nd army press bulletin announcing Secretary Stimson's visit, issued at headquarters yesterday.

The bulletin stated that Secretary Stimson would be available for a press conference with reporters at 7:30 a. m. Friday. It concluded tersely:

"In order to meet war department requirements and to expedite the interview, all questions to be asked will be typewritten and submitted by Wednesday morning, the 25th."

This means that newspapermen covering the war games must turn in all the questions they wish to put to Secretary Stimson before he arrives, and two days before he is to answer them.

### NAME SENT TO SENATE

Gov. Dwight Green today nominated Attorney Ruth L. Merrick of Dixon to become public guardian of Lee county, her name being among several sent to the Senate.

### Camp Life

Fort Bliss, Tex.—A soldier of the 12th cavalry, encamped in a barren section of the military reservation, groused about the sand in his soup.

"Did you join the army to serve your country or to complain about the food?" challenged the indignant cook.

"To serve my country—not to eat it," retorted the trooper.

With the Army in Tennessee—When a medical detachment of the 11th infantry set up an aid station during the night the "pill rollers" didn't have the slightest idea where they were. But dawn's early light disclosed that they were in a cemetery.

Arrangements are being completed for the physical examinations of all the babies registered in the show. The babies will be examined on height, weight, posture, musculature, skin, heart, lungs, nose, head, scalp, skin, eyes, ears, glands, mouth, teeth, adenoids, tonsils, genitalia, back, abdomen, arms, hands, fingers, legs, feet and deportment during examination.

### "Catch-All" Money Bill for Over 897 Millions Is Urged

Navy Would Get 97 Pct.  
of Total of Deficit  
Appropriations

Washington, June 25.—(AP)—An \$897,083,825 deficiency appropriation, including funds to give the navy 2,236 additional airplanes and 19 more auxiliary ships, was recommended to the house today by its appropriations committee.

The measure, a "catch-all" money bill for the fiscal year ending June 30, carried funds for almost a score of governmental agencies such as \$36,500,000 for the Office of Emergency Management; \$28,800,765 for the postoffice department and \$51,031,430 for the coast guard—the latter allotment including money for replacement of the 10 cutters transferred to Great Britain and for construction of three new icebreakers for duty in the Greenland area.

The navy's share of the total was \$742,465,145 of which \$467,046,600 was earmarked for the 2,236 new planes. The balance included \$47,000,000 for the guns and ammunition for these and other planes, and for the purchase of an unspecified number of 20 millimeter aircraft cannon, similar to those in use abroad.

Naval officials testified deliveries of the new weapon would start at the rate of 100 a month this month and probably be stepped up to three times that number next year. They will supplant the less effective .50 calibre machine guns in many cases.

97 Pct. For Defense  
In recommending the bill, the committee said that 97 per cent of the money was for purposes directly connected with preparation for national defense or for activities which directly or indirectly have felt the impact of the defense program. The total was \$22,072,145 below the budget estimates.

The additional naval planes, among which were 516 patrol bombers costing approximately \$516,000 apiece, will give the navy a total of 10,400 planes by June 30, 1942. By the first of next month, the committee was told, the navy expects to have 3,600 planes on hand.

In approving a cash fund of \$6,500,000 and \$3,000,000 of contractual authority for the Office of Emergency Management, the committee said that included funds for 11 emergency units set up by the president to handle the defense program and problems growing out of it. Stressing the need for

### College Reunion Set for Aug. 16th

A preliminary meeting of the officers of the Dixon College Reunion Association and advisory committee was held last evening at the Loveland Community House, to formulate plans for the annual reunion, which will be held Saturday, Aug. 16. The headquarters will be at the Community House.

Because of a surgical operation Tuesday, Mrs. Coral Lambert's resignation as secretary-treasurer of the association was reluctantly accepted. Mrs. Cenie S. Straw was appointed as her successor.

Committee chairmen were appointed by President L. W. Miller as follows: executive committee, Lawson G. Yenerich; nominations, Mark C. Keller, Sr.; luncheon and banquet, Diana Russell Miller; publicity, Esther Conley; radio publicity, Robert A. Rodesch; transportation, Arthur C. Handell; program, L. W. Miller.

### Rochelle Tavern Burns Soon After Its Purchase by Franklin Grover

(Telegraph Special Service)  
Rochelle, June 25.—Four frame buildings in the 400 block on Cherry street in Rochelle's business district were threatened with destruction by fire at the noon hour Tuesday, when fixtures and stock in Tim's tavern, which a short time before had been sold to Cecil J. Craven of Franklin Grove, were badly damaged by a blaze which started in the rear of the room.

C. R. Hicks, an employee, and several customers discovered the fire. When firemen arrived the rear of the store, the tarpaper roof, fixtures and stocks were in flames. The blaze soon spread to the adjoining building housing Harr's restaurant, repairs to which will take at least two weeks.

The kitchen, supplies and equipment of the restaurant were damaged, the loss amounting to approximately \$1,000. Henry Harr, the proprietor estimated. Total insurance allowed on buildings and contents is given at \$6,675.

Over 125 windows in the Howard Cooper elevator, across Dewey Court at the rear of the damaged one-story buildings, were broken by the intense heat.

### America Is All-Vacation Land

You don't have to leave your own, your native land, to have a wonderful summer! For this year, you can Vacation America—flying, boating, swimming, riding, golfing, motoring, fishing. What CAN'T you do when you Vacation America! It's the all-sport, all-fun, all-vacation land.

See its mountains, its seashores, its lakes and canyons; or just stay at home and see everything there is to see in your own town and state.

This issue of The Telegraph is jam-packed with illustrations and suggestions that will make its readers heed the signal: Vacation America and have the time of your life all summer.

### 'Honeymoon Over' Says Henderson, Boss of Prices

Washington, June 25.—(AP)—Leon Henderson, price control administrator, expressing belief that "our honeymoon is over" as far as voluntary price control is concerned, forecast that President Roosevelt would recommend mandatory price legislation to Congress at the proper time.

In testimony before a house appropriations subcommittee which was made public today, Henderson said that up to last February the informal methods of regulating prices had been effective.

"There was a most remarkable acceptance on the part of the people who make prices, business people, of the necessity for keeping prices down," Henderson said, "and we got a glorious increase in production."

Combination of Factors  
About that time, however, he said the shortage of shipping began to make itself felt, tonnage rates went up and prices on imported commodities increased. These developments were followed by drives in basic industries for wage increases and by pressure on the markets, particularly food markets, as a result of demands growing out of the lend-lease program.

The combination of these factors, Henderson testified, made it necessary for the price administration to switch its attention from one or two commodities to "almost the entire economy," and to get into the realm of allocation of commodities for civilian consumption.

### \$40,000 Damage Suit Started Here Today

Mrs. Edith Tromanhauser of Columbus, Ohio, through her attorneys, Dixon, Devine, Bracken & Dixon of this city, has filed a \$40,000 personal injury and damage suit in Lee county Circuit court, naming F. F. Wier, P. L. Keagle and R. M. Mumey, partners doing business under the name of the F. F. Wier Construction company, as defendants. A jury trial is demanded.

The complaint states that about 5 o'clock on the morning of Oct. 18, 1940, she was riding in an automobile on U. S. route 30, west of the junction with state route, No. 26 at Brechon's corner, when the car crashed into machinery belonging to the construction company. The complaint charges that carelessness and negligence in the failure of the contracting firm to place warning lights on the equipment resulted in the accident in which the plaintiff suffered permanent injuries. The complaint contains two counts for \$20,000 each.

### The Weather

WEDNESDAY, JUNE 25, 1941  
Chicago and vicinity: Fair this afternoon through Thursday; continued warm with afternoon temperatures near 90; gentle to moderate southeast to south winds.

Illinois: Generally fair and continued warm this afternoon through Thursday with afternoon temperatures mostly above 90.

Wisconsin and Iowa Fair tonight, becoming partly cloudy Thursday; continued warm.

LOCAL WEATHER  
For the 24 hours ending at 7 a. m. today: maximum temperature 88, minimum 63; clear.  
Thursday: sun rises at 4:33; sets at 7:33.

### Russia's Chances of Securing War Supplies Are Slim

Survey Is Started By Officials Before Aid Is Asked

Washington, June 25.—(AP)—President Roosevelt does not intend to issue a neutrality proclamation in the Russian-German war, Acting Secretary of State Welles, announced today. American ships thus will be permitted to carry arms to Russia's Pacific port of Vladivostok.

The United States thereby will take the same position with reference to the Russian-German war as it has maintained during the long undeclared war between Japan and China.

Welles noted that under the neutrality act, a neutrality proclamation is called for when the president or congress "shall find that there exists a state of war between foreign states and that it is necessary to promote or preserve the peace of the United States or to protect the lives of citizens of the United States."

The acting secretary then stated that Roosevelt had authorized him to announce that inasmuch as he finds that a proclamation is not necessary in the present instance to promote the peace of the United States or protect American citizens the president has no intention of issuing such a proclamation.

Port Remains Open  
Asked what effect this would have regarding the transport of arms to Russia in American ships, Welles explained that combat zones already established by the president do not include the Pacific region.

Vladivostok, Russia's large port in the Pacific, thus will remain open to American ships carrying arms or any other supplies.

Under the neutrality act American ships are forbidden to carry arms to "belligerent" ports, or to enter defined combat areas.

Welles said the United States has received no official communication from the Russian government since the American declaration on Monday favoring Russia against Germany and Roosevelt's announcement yesterday that all American aid possible would be given to the Soviet Union.

Expect Overtures Soon  
The expectation was that Soviet overtures for help would not be long in materializing after Roosevelt's voluntary statement at his press conference yesterday, promising

(Continued on Page 10)

### Bombing Contests Here on July 5th

Dixon will take on a gala attire for its annual Homecoming and Fourth of July celebration, the decorating committee announced today. The committee started its campaign yesterday and the general response of merchants organizing for the decoration of their places of business far exceeded that of last year. The business district was expected to present the most attractive appearance of its history for the two-day celebration.

Manager Rinehart Schnell of the Dixon Municipal airport is selecting pilots to participate in the bomb dropping contest, which is to be one of the feature free attractions to be presented on Saturday's program. This event is scheduled for 3:30 o'clock Saturday afternoon. A target will be placed on the island between the two bridges and the planes circling over the river will drop small bags of flour in an effort to hit the target. Prizes will be awarded the pilots making the best scores in this featured contest, which has been arranged by the Dixon Junior Association of Commerce.

### Urgent Call Issued for Jitterbugs, Hog-Callers, Master Minders, Etc.

Jitterbugs, hog callers and master minds—your opportunity to share in the attractive cash prizes given as part of Dixon's big homecoming, July 4 and 5, rests with you.

The contests being sponsored by the Dixon Junior Association of Commerce are to be a big part of the holiday celebration and if you wish to compete, you are urged to contact members of the committee at once.

Prizes will be offered in a jitterbug contest, for hog-calling, mail-driving, chicken-calling, a Prof. Quiz program and special contests for boys and girls.

Entrants are asked to file their names NOW with any of the following committee workers: James E. Bales, Robert Bovey, Clarence Vroegindewey, Don Danielson or Lyle Myers.

## Nazi Successes in Russia Seen as Unimaginable

### The War Today!

(This daily feature, conducted by Dewitt Mackenzie, is being written in his absence on vacation by Fred Vanderschmidt.)

Out of the vast confusion of the German-Russian front come some definite indications of hard resistance and counter-attack by mechanized units of the Red army. It is by such tactics, provided they are effective, that the bulk of the Soviet armed force can be saved to fight for many a day.

The primary objective of the Nazi blitzkrieg is to trap huge sections of the Soviet army by the same tactics used in Belgium and France: by pounding panzer spearheads through the front lines and deep behind them, there to form triangles or circles of steel through which the Reds cannot withdraw. In France, the allied armies did not have the tanks or guns to smash these spearheads before the process of encirclement was complete; the Soviets, obviously, are using a wealth of mechanized material in the bufferlands of the west for just that purpose.

Presumably these fierce defensive tactics are to permit the slow withdrawal of great masses of the Red army to strong positions deep in Russia, where Germany's chosen war of movement might be brought to an end and a large-scale counter-offensive organized.

Granted the Russians are at least partly successful in such a strategy, prolonged resistance will depend in large measure, on the staying power of the Soviet government and the unity of the people.

Once Hitler has gained the rich territory he desires in the west of Russia and has opened a road to the German nucleus of its superior strata of leaders."

He will make his own borders for his "unoccupied zone", of course, keeping the productive Ukraine, Caucasus and whatever else he desires for direct invasion of powerful state structures, and endured as long as the racial nucleus of the constructive state-race maintained itself. For centuries Russia drew nourishment from this German nucleus of its superior strata of leaders."

But he cannot do this with Russia's government army largely intact and its government willing to fight back, even from beyond the Urals, nor can he divert his armed forces for the fight in the west or Middle East so long as there is

(Continued on Page 10)

### Double Rites

Centralia, Ill., June 25.—(AP)—Mrs. Minnie McGlasson, 71, dropped dead at her home here last night when informed that her daughter, Mrs. Valley Jo Hopkins, had died suddenly at Carbondale.

Mrs. Hopkins, wife of R. E. Hopkins, who is caretaker at Giant City state park, was stricken with a critical illness yesterday afternoon and died eight hours later.

A neighbor of her mother was notified here and when the information was relayed to Mrs. McGlasson, she collapsed. She had been under treatment for a heart ailment.

A double funeral probably will be held here.

### Finns Reported to Have Joined Germans

By The Associated Press

Finland was reported to have declared war on Russia today after the Soviet air fleet launched a wholesale offensive across southern Finland in reply to German raids that left Leningrad in flames.

An authorized German spokesman in Berlin said Finland had joined the war formally and that fighting was going on in full force. Dispatches from Helsinki itself reported the cabinet would tell parliament in emergency session tonight the measures the country would take "against Soviet aggression."

Helsinki had four alarms, was bombed twice and many Finnish civilians were reported killed.

A German military spokesman declared German successes "baffling the imagination" had been achieved and would be announced tomorrow.

He reported that the German airforce already had full supremacy in the combat area and that tactical surprises by panzer columns had succeeded. Soviet troops were said to have resisted strongly but to be unable to hold up the German drive at any point.

Believe Command Cut Off

Belief was expressed in Berlin that the Russian high command already might be cut off from contact with some of its armies.

A Bucharest communique from the German-Rumanian front admitted heavy Russian air raids on the Rumanian cities of Constanta, Sulina and Galati, but said they failed to inflict severe damage. Russians reported both Constanta and Warsaw in flames and said their troops were holding the Germans in the south.

Before the Finnish declaration was announced in Berlin Helsinki made a sharp protest to Russia against what it called the unprovoked attack and said the Soviet assertion that German troops had attacked Russia through northern Finland was a deliberate lie.

Pravda, the Communist party organ, warned that "the world will be amazed by the forces which the Soviet people in its indignation and patriotic wrath" would hurl against Germany.

Helsinki Bombed Twice

Bombs fell in Helsinki twice and started a forest fire outside the city. Many other Finnish cities were reported attacked.

Finnish fighters and anti-aircraft guns resisted the raids and were said to have shot down eight Russian planes.

Germany announced the war was progressing so favorably that "great successes" were in prospect. Deep thrusts of German columns into Russian territory were claimed. Reports from Turkey said Russians were offering little resistance in the former Rumanian province of Bessarabia and that a German parachute

(Continued on Page 10)

### RFC Considering Loan to Britain

Washington, June 25.—(AP)—Jesse Jones, Federal Loan Administrator, announced today he is "considering a loan to the British government."

Jones said in a formal statement that the loan is being studied by the Reconstruction Finance Corporation under a new law authorizing such a loan and added that "the purpose of loan would be to provide the British with dollar exchange to pay for war supplies in this country, without having to sell their American securities and investments at forced sale."

He gave no amount of the proposed loan, which has been reported in some quarters at "several hundred million dollars."

RFC officials, however, hinted that a smaller figure was contemplated to begin with.

Jones said the collateral for the proposed loan would include "the direct investments and a wide diversification of stocks and bonds of corporations in this country."

# When Year's Work Is Done, 'Tis Time for Fun

## America Becomes Land of Pioneers; Thousands Will Motor Road to Rediscovery

Nation's Peace and Beauty Are Lure to Many Travelers; Americans Are on the March to Explore New Frontiers in Own Land

There is still peace and beauty in America. As precious to man as these may be, the ugly reflection of a spreading blackout in Europe only tends further to project the significance of peace here. America this year becomes a land of pioneers.

To millions who are but dimly aware of the country's broad grandeur, America becomes a new adventure—for lands abroad are barred from access.

By train, by plane, by bus, by boat—but principally by motor car—thousands will travel to new American vistas. This summer will recreate for Americans and America the spirit that began with the breaking of new frontiers, for Americans are on the march in exploration of their own land.

The new frontiers—within the old—will reveal cultivated lands, rugged national recreational preserves, teeming industrial areas, and bustling life of big cities, the quiet life of small towns as America motors on the road to rediscovery.

**Beckons Traveler**

While blackouts darken the lives of families abroad, diplomats ponder grim problems, and bombs blast landmarks out of existence in Europe, the glories of this country beckon to the traveler.

America is a nation that grew to its peak because its people and its beauty and resources became welded into one continuous stream. It is this tradition, this solid entity of men and terrain, of ambition and resources—born out of struggle—that sets the tempo for America's rhythm.

From "the rock-ribbed coast of Maine" to the redwood grandeur of California, from the sanded playlands of Florida to the rich, bounding plateaus of Minnesota; across endless stretches of the world's richest soil in the mid-west, through man-cut chasms in the Rockies, past Ohioan blends of farm and mill and belching steel smoke in Pennsylvania eastward to the wonders of Manhattan—south, where oceans of cotton wave warm greetings and then westward across a land bursting with color—or through New England, charming, proud and luxurious—listen to the tempo of America!

**Invites Discovery**

And to millions, America has yet to be discovered, seen in all its sweep, aburst with all its might. There is not a single state that does not contribute to this element of discovery.

There are rivers and lakes that are the envy of the world; hills and mountains and rolling plains unduplicated; natural springs and geysers and falls which attract visitors from the farthest lands; a vast scenic panorama that combines all the inspirations ever sung by poets in every land and of every age.

Travel America—this year!

**Special Events Are Scheduled in Three States**

The highest portions of the United States are in Colorado, New Mexico and Wyoming. This fine playground region is rightly named the Rocky mountains.

The mean altitude of the three states is 6,400 feet, the area including the most precipitous mountains in this continent. The lowest elevation is 2,876 feet in southeastern New Mexico and the highest is Mt. Elbert, 14,431 feet, in central Colorado.

Special events on the 1941 calendar of the three states have been scheduled as follows:

**July**

1-Aug. 31—Colorado Chautauque, Boulder, Colo.; 2-4 Cody Stampede, Cody, Wyo.; 3-4—"Spud" Rodeo and races, Greeley, Colo.; 5-4—Range Call Rodeo, Meeker, Colo.; 3-4—"Steamboat" Rodeo, Steamboat Springs, Colo.; 3-4—Pinedale Rodeo and Round-up, Pinedale, Wyo.; 4—Water carnival, Quiray, Colo.; 7-12—National Professional Golf association's tournament, Denver, Colo., for which Ralph Stonehouse, Dixon Country club pro, qualified at Chicago recently; 5-26—Central City play festival, Central City, Colo.; 7—Aug. 20—Brotherhood of Firemen and Engineemen, Denver, Colo.; 11-13—Cattlemen's Days, rodeo and fish fry, Gunnison, Colo.; 15-18—Free open air opera, Denver, Colo.; 18-19—Montrose rodeo, Montrose, Colo.; 22-26—Cheyenne Frontier Days, Cheyenne, Wyo.; 30—Aug. 1—"Ski-Hi" Stampede, Monte Vista, Colo.

**August**

2-3—Dubois Rodeo, Dubois, Wyo.; 3-5—Jackson Hole Rodeo, Jackson, Wyo.; 9-10—Estes Park Rodeo, Estes Park, Colo.; 9-10—Spanish Trails Fiesta and Rodeo, Durango, Colo.; 10-12—American Legion convention, Salida, Colo.; 10-16—Lipton Cup Yacht regatta, Grand Lake, Colo.; 13-16—Inter-Tribal Indian ceremonial, Gallup, N. M.; 13-15—Pioneer Days and Rodeo, Loveland, Colo.; 15-17—Colorado Springs Rodeo, Colorado Springs, Colo.; 20-22—Northern Colorado Fair, Longmont, Colo.; 25-29—Colorado State Fair, Pueblo, Colo.; 28-29—Peach Festival, Grand Junction, Colo.; 31-Sept. 1

**Field Trials**

In July and August, the Southern Indiana Coon-Dog Field Trial association will have meets at the following places with the following club sponsors and on the following dates: June 29, Spencer County Coon Hunters club, Rockport; July 13, Posey County conservation picnic, New Harmony; July 20, Mt. Vernon Conservation club, Mt. Vernon; Aug. 17, New Harmony Coon Hunters and Conservation club, New Harmony.

**Colorado Rockies Contain Answer to Vacation Question**

**Mountain Climbing and Fishing, Call to Outdoor Minded**

No matter what you wish to do on vacation, the complete answer lies in northern Colorado's great Rockies. In the midst of the massive mountains, is the Rocky Mountain National park, with Long's Peak (elevation 14,255) a great stone giant, lifting in sheer majesty above the sunny, pine-decked basin where nestles the village of Estes park.

Mountain climbing for the very active, visits to the glaciers, and hours of fishing along dashing mountain streams call to those who love to play in the outdoors.

Those who yearn to "go western" often wear ten-gallon hats, and ride out on horseback from the hard-surfaced highways that lead from every direction into the park. For those who wish only to rest, to watch the lazy cloud shadows on big peaks, the pagentry of glorious sunsets blazing over the Continental divide, there are easy chairs on porches of rustic mountain cabins. The visitor may listen to the song of the mountain winds whispering through lacy needles of old pines, the murmur of nearby streams and the laughter of young folk.

**For Luxury**

For those who desire the luxurious accommodations of metropolitan centers, there are hotels, where the finest of service and equipment may be found. Or there are "dude ranches" tucked away in the valleys, inviting with their outdoor activities and wholesome food.

One may reach the National park via Boulder, through great canyons, past mining towns and the glacier mantled peaks; or through Longmont and Lyons, up either the south or north St. Vrain canyons. Going by south St. Vrain, one may pause at Allenspark where cabins and comfortable, modern lodges welcome the traveler.

Or the roads to the park may come through Greeley or Ft. Collins to Loveland, thence via Big Thompson canyon, past spectacular cliffs and canyon walls, until the great "parks" of the mountains, the sunny valleys, open ahead.

The broad canyon highways that swing through these scenic gorges follow corridors fashioned by ice. Eons ago, when the ice cap covered these Rockies, slow grinding glaciers patiently chiseled out the rock hallways the roads now traverse.

## Mid-Western Lakes Are Summertime Playground

The sandy beach at Lake Geneva, Wis., attracts thousands of swimming enthusiasts who enjoy themselves in the cool, clean waters of this southern Wisconsin lake. The scene pictured above will be re-enacted along hundreds of miles of lake shore this summer, as vacationists seek escape from city heat—in regions set aside for happy play by day, and deep, restful sleep by night.

## OIL RESERVOIR IS SEEN AT CENTRALIA

Approximately 85 miles south and slightly east of Springfield, capital of Illinois, the visitor will find an interesting and intriguing scene as may be found anywhere in the nation—the new oil fields of Illinois.

Passing through the heart of the oil country, centered at Centralia and Salem, the visitor finds towering oil derricks, pumps going day and night, adding new oil and gasoline to the nation's supply, pumping millions of gallons of crude oil from Mother Earth into tanks to await refining and eventual use.

The drive along U. S. Highway 51 and on many of the feeder roads to this highway, is an interesting experience, for rich producing wells crowd the area, row upon row of homes have sprouted into cities overnight and activity is at fever height.

Gleaming torches shoot their fire into the night air, torches fed by natural gas in the deep earth, lighted to consume the gas so it may escape to relieve danger of pressure explosion hundreds of feet down in the earth's core. To the traveler who likes night travel, or to the visitor stopping at one of the nearby communities, a drive at night into the area will present a picture to be indelibly stamped upon the visitor's mind.

**Carlsbad Caverns Beckon Travelers**

Carlsbad Caverns national park is located in southeastern New Mexico, in the rugged foothills of the Guadalupe mountains. The region is picturesque semi-desert country, and its cactus vegetation is as strange and interesting to many visitors as are the caverns themselves.

The first white man known to have explored the caverns was Jim White, a cowboy. Seeing a dark, moving column issuing from the region, he investigated and found a natural opening in the earth which led down to the caverns. The column proved to be a moving stream of bats.

This was in 1901, but it was 1924 before any publicity was given to this great cavern. It was established as a national park in 1930.

Carlsbad caverns are a series of connected caverns of unusual magnificence and extent, formed in limestone by the percolation of water that has found its way along crevices and breaks through the ground above. Once water enters limestone, it begins the incessant process of removal by solution. Slowly it seeps through the crevices, removing the firm rock, and eventually forming caverns.

During this second period of development, Nature converts these gray cavities into a wonderland. Some stalactites are stalagmites have joined together to form huge columns.

The immensity of the large rooms, the beauty of form, and the impenetrable stillness leaves an incredible impression upon those who venture into this fairyland. The caverns are so impressive that no explanation seems adequate.

Carlsbad Caverns national park is open throughout the year. The temperature in the caverns remains stationary at 56 degrees.

## Vacation Experiences

By THE VAGABOND

Last night he took her to the night club. They ate a lot of food... danced a lot... sang a bit... finally they argued a bit—she didn't want to go home and he was tired of it all. Today they were out in the boat on the lake. He was fishing. She was complaining about the sun. He wanted to hike over the hills in the afternoon. She wanted to sleep for a couple of hours, then go down and sit in the easy chair on the veranda... so she could be rested to go back to the night club again. They argued again. Each felt the other was a louse... They should have taken separate vacations.

She was beautiful, lying there on the pillow... with one white arm above her head. One moment she was asleep and the next she was wide awake and half way out of bed. And just as suddenly she stopped, smiled to herself, and got back under the covers. There was a deep sigh of contentment. Today she wouldn't have to pound the typewriter... she wouldn't have to rush to catch a train... she wouldn't have to gobble up a hurried meal... she wouldn't have to listen to the roar of traffic. Today she was in the Upper Peninsula of Michigan—the first day of a real vacation.

She was "his girl" and he wasn't ashamed to let the world know it. I judged him to be 16 or 17... a young gallant who saw to it that his girl's every wish was taken care of before she uttered a word. He picked up her magazine when it fell from her lap. He walked off and came back with cold drinks. He brought a pillow and put it back of her head. Then he ran his fingers through her hair and I heard

## EARLY OUTPOST IS PERPETUATED

Randolph county, Illinois is rich in historical memorials, with Fort Chartres, Fort Kaskaskia, Garrison Hill cemetery, and the Pierre Menard homestead all within its borders.

At Fort Chartres state park, a unique method has been used to give a graphic picture of the design of the original fort and buildings. The level of the compound has been lowered to expose the original foundations of the walls and the barracks, so that the visitor sees before him as though in blueprint form, exactly how Fort Chartres appeared.

The original powderhouse still stands, one of the oldest buildings in the middle west. The large arched gateway has been restored, and ancient cannons command the avenue, leading to the massive wooden gates between the stone supports. On the foundation of the original supply house, the state has constructed custodian's quarters and a museum which holds relics directly associated with the original fort.

Fort Chartres state park perpetuates an outpost of civilization dating back to 1720, which played an important role in the drama of creating a commonwealth out of the wilderness.

## Motorists to See America, Its State Parks, Scenery, Shrines and Memorials

These United States Possess Wealth of Interest For Vacation-Minded Tourists, Whether They Head North, South, East, or West

Going traveling? More road maps, travel booklets and information data on interesting sites are being studied by American motorists this year than any time in recent memory.

The car is in perfect condition; there's a week, a month, a full summer of motoring pleasure ahead; a friendly wave to the folks (or maybe they're going with you) and you're off—to see America.

Whether you head north, south, east or west, a magic carpet of highways brings you to a piece of America that is scientifically supreme, historically dramatic and as grand a sight as the most sated tourist can hope to see.

Suppose you roll through New England. The picturesque, traditional countryside offers too many beauties to be listed here. But the White Mountains of New Hampshire bring the Alps of Switzerland to America and the lakes in Maine are among the most famous and numerous in the world. A fisherman's paradise, they have been called, and the tackle, baits and fishing rods will become as important almost as the spare tire along this state's rugged by-paths.

## Scenic Beauty of Turkey Run Inspired Parks

Area Is Noted For Rock-Walled Canyons and Virgin Forest

The scenic beauty of Turkey Run state park, with its deep-cut twisting canyons; its acres of virgin timber and its profusion of bird and plant life, became the inspiration for Indiana's series of nationally-known state parks.

Conceived as a memorial to a century of statehood, Turkey Run became a state park in 1916 after its sponsors had faced many disappointments and overcome many handicaps.

Located on Road 47, a short distance off Road 41 and near Marshall in Parke county, Turkey Run state park today has an area of more than 1,300 acres. Within its boundaries, the visitor finds a wide range of scenic beauty and facilities to increase his enjoyment of the area.

**Receives Name**

The park takes its name from the great flocks of wild turkey which once inhabited the region and the area was a favorite one with the Indian tribes. In 1821, much of the land now in the park became the property of Capt. Salmon Lusk as a reward for his military services.

A native of Vermont, the ruggedness of the area and the suitability of Sugar Creek as a site for a water-powered grist mill, appealed to him strongly. Foundations of the mill, cut in the solid rock, are visible today although the building itself was swept away by flood in 1847. The Lusk home is today one of the points of interest for park visitors. Both Lusk and his son loved the area and preserved the forest, one of the few virgin tracts left in Indiana.

It was following the death of John Lusk, the son, in 1915 that

**A Huge Land**

America is too huge a land to even begin a quick summary of its travel lures. There is not a single sector within the 48 states that doesn't hold its place among the most beautiful and gripping sights in the world. Travelers from abroad have often commented that their homelands have been depicted in the mountains, the rivers, the prairies, the farms, the industrial centers, the southern plantations—there's a little bit of every nation inside the U. S.

On the west coast and along the trail blazed by Lewis and Clark, the giant Sequoia trees in California, the wonders of Yosemite park, the thrilling majesty of Mt. Ranier in Washington, the profound wilderness and stern beauty of Mt. Baker National forest in Oregon, the Cascade range, Crater Lake national park, also in Oregon, Mt. Whitney, highest point in the country—with extinct volcanoes, gushing geysers, wondrous parks, panoramas of raw nature—these beckon to the motorist in the Northwest and the Pacific states.

Cut through the heart of America—the central states, and poke your way through the famous underground caverns and Ozark beauties in Arkansas and Missouri; the Rocky Mountain vistas in Colorado; the lakes and farm expanse of Iowa; the 10,000 glacial lakes of Minnesota; and the

to men, women and children in the United States.

Of this number, according to tabulations released by the Fish and Wildlife Service Department of the Interior, 5,481,376 were limited to fishing, while 2,376,899 included both hunting and fishing.

The total revenue from the sale of fishing licenses amounted to \$10,937,168.28. New York, with \$1,151,687.63, led all other states in the amount of revenue received from the sale of fishing licenses; California was second, with \$746,142; Pennsylvania, third, with \$614,734.25; Michigan, fourth, with \$613,526; and Indiana, fifth, with \$567,496.19.

The money collected from the sale of fishing licenses by the 48 states does not necessarily indicate the states issuing the most licenses. Michigan, for example, while fourth in the amount of revenue collected from their sale, was first in the number of fishing licenses issued.

Licenses issued in Illinois totaled 411,566, with revenue amounting to \$314,772.50.

### THE OTHER FELLOW

A tip to the motorist: You lead a double life—a motorist and as pedestrian. So remember the fellow who walks when you drive.

### GOVERNOR GREEN'S WELCOME—

To Our Visitors:

Illinois is happy to welcome all who come to visit with us, whether it is for a day, a week, or longer.

We have much which we hope you will have time to see: Our great metropolitan city of Chicago; Lincoln's New Salem village, where the Great Emancipator grew to manhood; the state capital building in Springfield, the city in which Lincoln lived as a private citizen until called into the service of the nation, for which he gave his life. Lincoln's remains lie buried in Springfield, under a magnificent tomb.

Our major cities are teeming with industrial activity, yet provide fine hotels and many recreational facilities; our rolling prairie lands are striped with fine paved roads to speed the visitor through beautiful farm country into the hilly Ozarks in the south and southwest; into the famed oil fields of south central Illinois; and to many state and municipal parks.

We bid you welcome, and in every uniformed officer of the state, as well as in every private citizen, you will find a courteous guide and a friendly aid.

And when you have ended your visit, we hope that some day you will return to share our hospitality again.

Sincerely yours,  
Dwight H. Green,  
Governor of Illinois

## Cave of Mounds, West of Madison, Is Something New for Vacationists

Something new for travelers was discovered near Blue Mounds, Wis., when a quarry blast on Aug. 4, 1939 made an opening in the side of Cave of the Mounds, and exposed long passageways in the limestone, elaborately decorated with drapes and pendants of cave onyx.

Throughout thousands of years, hidden in silent darkness, natural forces have made airy rooms with graceful arches, curious domes and water-etched walls. Many of these unspoiled treasure rooms are filled with stalactites and stalagmites, brilliantly colored in red, brown and shades of orange. There are petrified waterfalls, tiny underground lakes, lily pads of stone, floors of cave onyx, and strange statue-like formations of crystal limestone which make Cave of the Mounds a fascinating world.

Adventure In Beauty As one follows the roomy board walks through this artistically lighted cavern he seems to have stepped from the world of green trees and sighing winds to a Walt Disney world of gnomes and brownies. The half-hour trip through this enchanting fairyland is a new experience, an adventure in beauty which gives a thrill of pleasure to even the most widely traveled tourist.

This spring, a second level in Cave of the Mounds was opened to the public. Visitors now are conducted through the curious lower meanders which twist and curve through the limestone like interlacing corkscrews. The new section also exhibits the very "Blue Room" where the limestone walls are covered with some copper salt which gives a blue tint to the surface.

Helictites In the north section of the cavern there are delicate ribbons and straws of stone formed by slowly dripping and evaporating lime-water. In one room there are a number of formations which curve, twist and grow upward in defiance of the law of gravity. These are called helictites and resemble crocheted hooks, fish hooks, and even coiled wires.

This newly-discovered natural wonder is on the cement highways U. S. 18 and 151 just 25 miles west of Madison, Wis. There is ample free parking space in the oak grove about the cavern entrance and guides are available at all times. A large new entrance building increases the comfort of visitors.

### TACKLE QUIZ

Question—What is a bi-visible trout fly? Answer—A high-riding dry fly that is easily detected on dark days and at sunset. The fly is heavily dressed all-hackle.

### Traveling Cheques

Woe to the motorist with a swell car, a perfectly-planned vacation, a full regalia of touring ecstasy who discovers, miles away from home, in a strange section, that his money is gone. Where? How? Why? When?

It doesn't matter much, because without it, the motoring dream is punctured beyond repair—unless he has traveling cheques to fall back on.

Money disappears in a thousand ways, even on a motoring trip. The wallet disappears mysteriously—it has been mislaid, the bills fall out somewhere along the road, perhaps an unpreventable accident or hold-up—they sometimes happen.

A long trip should be completely safeguarded, not only by a perfectly conditioned car and careful driver, but by a wise system of financial safety, too. The traveling cheque can always be refunded; if lost it can always be returned at full value; they are honored in every sector of the nation where a representative of the company has an office (and that is almost every place a motorist can possibly be). They are simple and practical to use, and they are always respected.

### BLUEBERRY FESTIVAL

Manistique, Mich. is the setting for the National Blueberry Festival, a three-day program of fun and frolic, July 24-26. Blueberry pies, tarts, pancakes, preserves, and just plain blueberries—you can get them all at the Manistique Festival.

### Dixon Beach and Rockford Beach GRINDSTONE Lake

New chain of cottages. Lowest rates, best fishing. World's largest muskie on display. Write us first for better vacations.

H. W. MUTIMER HAYWARD, WIS., R. 2

### TACKLE QUIZ

Question—What kind of leaders should be used for wet-fly fishing and what kind for dry-fly fishing? Answer—The tapered leader is best adapted for dry-fly fishing because of its light-weight tapered end. The level leader is the best for wet-fly fishing. A level leader will sink more readily.

### TACKLE QUIZ

Question—Is the linen line stronger when dry than when wet? Answer—Yes. Linen lines will swell to some extent when wet and the swelling increases the strength by decreasing the fibre slippage.

### DIXON HIGHWAYS

## Vacation Varieties!

Here's a 5-Star Vacation Route designed to fill every desire of young or old, child or adult, for a Vacation filled with exactly the things you want to do.

### \*HOTEL WASHINGTON

Washington, D. C. At no previous time in our Nation's history has Washington offered the Vacation appeal it now holds. Room-Town Washington boasts of an Affiliated National Hotel located opposite the U. S. Treasury and overlooking the White House.

### \*MOUNTAIN LAKE HOTEL

Mountain Lake, Va. Mountain Lake has an altitude of approximately 4500 feet. A climate of 66 degrees average temperature. A mile high golf course. Mountain climbing. Swimming. Boating. Horse-back riding. Scouting and many other sports. Good all-paved mountain road right to our door.

### \*JUNG HOTEL

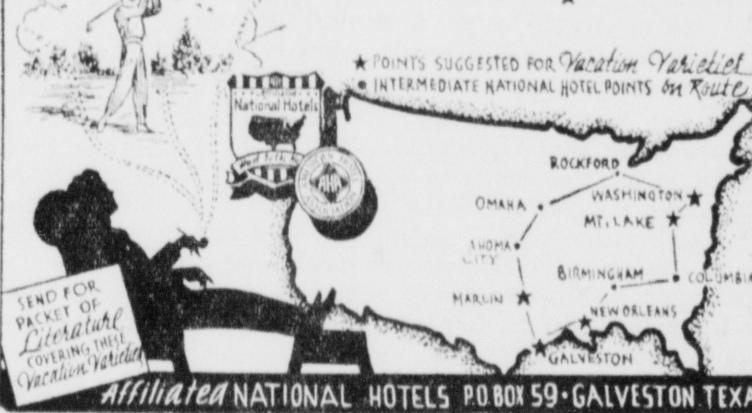

New Orleans, La. Now here's a spot to pick for Vacation Varieties galore, never a dull moment in quaint, interesting Old New Orleans. The Jung Hotel centers all activities. We know you'll like the Jung. 700 rooms mostly Air-conditioned.

### \*HOTEL FALLS

Marlin, Texas Come for your health's sake. Marlin baths and water are nationally known. The Falls Hotel and the Marlin Bath House are connected by underpass for privacy. Good food, whether it is of your choice or a recommended diet, makes a rest at Marlin pleasurable. Air-cooled Coffee Shop. Fine Rooms and Suites. Special Rates to Guests on extended stay. On State Routes 6 and 139.

### \*HOTEL BUCCANEER

Galveston, Texas Finest Surf Bathing in the world. Free Beaches. Amusements Galore. Plus Fishing in all its varieties. Hotel Buccaneer, or Galveston at the center of all beach activities. 650 Rooms within easy block on the famous seawall Boulevard overlooking the Gulf of Mexico. Reasonable Rates. Finest Foods and Accommodations.

## Home-Stretch Spurt Any Time You Say

**PAYS YOUR GAS TAX FOR YOU**  
At present Federal tax rates, the savings on gasoline effected by Compound Carburetion are usually more than enough to pay Federal taxes on the gas you buy.

PLENTY of men can run a mile around a cinder track. But those who win races — and championships — are the ones who can turn on the *plus* when it's needed. Probably that's why you hear so much these days about Buick's exclusive Compound Carburetion. It gives you an engine that will cruise right along with the distance runners and pile up plenty of miles for your gasoline money. No fooling — owners write in to tell us of mileage as much as 10% to 15% greater than previous Buicks gave. But any time you want plus-performance — a home-stretch spurt — just step down on the gas treadle. Instantly, you send an extra carburetor into action. You step up the supply of both gasoline and air — and virtually give yourself a bigger engine to get you places in a hurry. That means thrills — and plenty of them. It means, also, efficiency — proper use of every drop of fuel without useless waste. It bears out the Big Point about this 1941 Buick — that on size, style, comfort, room and ability, it's far and away the top value of the year.

To see how true that is, just go size one up against the low delivered prices your nearest Buick dealer is asking.

†Available on Buick SPECIAL models at slight extra cost, standard on all other Series.

## "Best Buick Yet"

EXEMPLAR OF GENERAL MOTORS VALUE

## A Thought For Today

The last enemy that shall be destroyed is death.—1 Corinthians 15:26.

It is vain for a coward to flee; death follows close behind; it is only by defying it that the brave escape.—Voltaire.

## War Chickens Come Home to Roost

The war for whose outbreak Russia flashed the green light by its pact with Germany Aug. 22, 1939, has now come to Russia itself.

This final collapse of the Stalin-Molotov policies of the past 21 months means that the whole world must back off and take a new look at the war.

Hitler's deliberate violation of his 10-year pact with Russia gives new proof—as if any new proof were needed—of his black-hearted perfidy. It now seems clear that he simply sucked the Russians into the pact of 1939 for his own purposes, never intending to keep the pact. Certainly all the objections he now makes to the Russians—that they are imperialistic, that they are trying to disintegrate the German government, and so forth, were true in 1939, are true now, and have always been and will always be true of Russian policy in Germany and in the United States, for that matter.

The Communists have been calling this an imperialist war. So it is, now, in the sense that both Germany and Russia are imperialist, each having grabbed off all the territory it could grab ever since the war broke out.

We in the United States are naturally more interested in how all this affects us. Directly and immediately, it would seem, very little. We are committed to a policy of aid to Britain. We have not yet been able to provide anything like the aid to Britain which she requires.

So any question of aiding Russia is unrealistic. Thanks at least in part to the opposition and obstruction of Communists in America, arms production has not yet reached a point where there is any surplus for Russia. So any debate of direct help for Russia is meaningless. Britain herself can probably do nothing for Russia except to pour it into Hitler in the west. Our interest in her success there remains unchanged.

More direct is the fact that China will now almost certainly be cut off from the Russian aid which has been valuable to her. That means that China will depend more heavily on help from the United States. She should have it.

Whatever is the upshot of the German-Russian war, it can scarcely fail to benefit Britain in her struggle. Win, lose, or draw, in Russia, Germany must lose hundreds of planes and pilots, hundreds of tanks, thousands of trained men. Only quick, complete defeat of Russia could really help Hitler. Britain gains precious time and breathing space. The United States, too, gains precious time in

which to perfect our own defenses and to make our program of aid to Britain really conclusive. American interest in the war between the two imperialistic dictatorships of Germany and Russia will be proportioned to its effect on the basic struggle between the free peoples of western Europe and nazism.

## The Business of the United States

Do we learn anything? Do the stern chastisements of fate really guide us from the less worthy to the more worthy? One may hope they do, in the long run.

Justice Frankfurter has set before America the lesson he thinks it should have learned throughout these 20 years that have intervened between wars.

"So completely were the governing minds of America under the powerful illusions of materialism during the Babylonian twenties," he has said, "that a President of the United States could say that 'the business of America is business', and believe he was uttering a truism. The business of America is civilization."

Business, of course, we must have. It is a necessary part of our civilization. But it is only a part. We owe Justice Frankfurter a debt for reminding us that the task of America is to create a civilization, and create it whole.

## Be Alive on the Fifth

The Glorious Fourth is also the Careless Fourth, and the National Safety Council draws on long past experience when it launches a slogan for this year's Independence Day celebrations:

"Be Alive on the Fifth!"

Averages indicate that unless we take unusual care, 475 people are doomed to die in holiday accidents this Fourth of July. It need not be.

Make it a real patriotic holiday—not just an annual deadly jamboree of carelessness.

## Pushing Death Back

For children between their first and fourteenth years, death has been pushed away a measurable distance in the past 20 years. The death rate has declined by 60 per cent between those years. Dr. Louis I. Dublin told the American Institute of Actuaries, while infant mortality also declined 45 per cent in that time.

The fact that the number of children born is also continually declining makes all the more important the preservation of the lives of those who are born. The improvement continues, Dr. Dublin assured the actuaries, though in some age groups it is already so low as to make much further improvement difficult to achieve. For instance, at age 10, the death rate is now only 1.07 per 1,000.

Does it matter to conserve life like this in times when it is being poured out so prodigally on the battlefield? Yes. War will not last forever, and the knowledge of how to conserve life will be useful long after the knowledge of how to destroy it has become useless.

A nation-wide drive for enough scrap aluminum to build 650 bombing planes is to be launched. Out of the frying pan into the fire.

Glad to hear that piano sales are 20 per cent above last year. We're for anything that means more harmony.

The fellow who loafs all the time misses all the fun of looking forward to vacation.

## NEWS BEHIND THE NEWS

By PAUL MALLON

(Distributed by King Feature Syndicate, Inc., reproduction in whole or in part strictly prohibited.)

Washington, June 25.—The Nazi general staff is letting the international grapevine relate that it expects as much from its fifth columnist in Russia as from its army in the field.

Hitler agents are supposed to have been buying up Red politicians for more than a year against this day. The buying was based, of course, on promises of leadership when Stalin was overthrown.

The Germans seem to have the notion that complete conquest, therefore, may not be necessary; all they need is a few smashing military blows to prepare the way for revolution.

The nazis were unprecedently considerate of Americans in Moscow on the eve of the attack. The German diplomatic source there privately advised a member of our embassy staff 4 hours before the break came to get American wives and women workers of the staff out into the country over the weekend. This was the first and only advance information received manifest by the nazis to American diplomats.

The White House received an indirect tip from Stalin but failed to recognize it. Communist pickets, who had been walking up and down for weeks in front of Roosevelt's house carrying banners denouncing imperialistic wars. Suddenly withdrew the day before Stalin became involved. Picketing officers explained the timing was just a coincidence, but state department officials are laughingly kicking themselves for failing to appreciate the significance of the withdrawal. Next week the Communies will probably be back with signs urging Roosevelt to declare war.

For the first time in this war, American diplomats and military men agree in their expectation of what will be the fate of Russia. They both give the Reds no more than 4 to 6 weeks. The Red army and government are politically unstable, torn with individual dissensions and inefficiency. If the ponderous regime falls, the clatter will be terrific.

No officials here share the popular viewpoint that the development was a break for England. Hitler has over 300 divisions. He could not possibly use more than 100 against England because of the restricted space for operations. Theoretically, therefore, he could attack both Russia and England at the same time, although naturally he will await, for other reasons, the outcome of the Red venture before committing himself further.

If the common expectation of a six-weeks campaign is justified,

Hitler would be ready for England around August 1.

The natural urge of statesmen to expound their opinions was overcome to a remarkable extent after the sensational new turn of the war. This government let Churchill speak first and then the official American policy line was presented, not by Roosevelt but by Understate Secretary Summer Welles. Senators and congressmen singularly repressed themselves to an unusual degree.

This was not due to any widespread doubt about Churchill's proclaimed course. Simple self-interest aid by us to anyone fighting Hitler. But an overly enthusiastic commitment might cause serious complications eventually. What, officials asked each other, if Stalin escaped and sought refuge in this country or England to establish a "Free Russian" government in the mode adopted by the Norwegians, Dutch, French, etc.?

The situation seemed to require support of Russia without support of Communism and that is the way it is being cautiously worked out.

Stories circulated for weeks before the attack about Nazi-Red negotiations for new trade agreements or treaty were all false plants.

They were probably feelers by Stalin circulated through Stockholm, Ankara, etc., to sound Hitler out on some negotiations. If a single conference or discussion of any point of issue preceded the attack, no authority here has been able to find any evidence of it.

Hitler just did not give Stalin the chance to negotiate.

Suddenness of the venture caught many experts far out on dead limbs. Newsweek Magazine, dated a day after the attack, told how Hitler was going to assign half the mid-eastern world to the Russian sphere of influence, as follows:

"Reports that the axis plan of a 'new world order' involves assigning India, Afghanistan, Iran and Iraq to a compliant Russia as its sphere of influence are supported by new Japanese moves."

## TO MEDIATION BOARD

Washington.—(AP)—The dispute between the Western Cartage Co., Alton, Ill., and local 22574, Chemical Workers Union (AFL), was certified by Secretary Perkins to the defense mediation board. A hearing will be held June 27, starting at 9 a. m. (CST).

## MASS IMMUNIZATION

Elgin, Ill.—(AP)—Mass immunization of 5,650 patients and employees of the Elgin state hospital against diphtheria and typhoid fever has been started by state health department and institution physicians. A diphtheria outbreak at the hospital several weeks ago resulted in 20 cases, three fatal.

## SERIAL STORY

## CALIBAN FROM CALEB

BY NORMAN KAHL

COPYRIGHT, 1941, NEA SERVICE, INC.

YESTERDAY: On the way out to a place in New Jersey where Spike Dodge and his henchmen intend to kill Angus, the broccoli racket is explained to Angus, who leaves for the first time that he has been in a crooked business. When they reach the spot where the killing is to take place, Angus bends up Spike and two of "the boys." The third gets away in the car and Angus hails a truck and knocks out the driver. He puts Spike and Butch and Tim in the truck and starts back for Manhattan.

## FITZWATER UNMASKED

## CHAPTER IX

HOIMON the Hoist doesn't look back after he shoots away from the grove in Spike's car. He doesn't even take a deep breath until he reaches the main highway back to Manhattan. He feels like a man who has just seen a tidal wave.

If this guy Angus MacPhillips is dumb, then he, Hoimon the Hoist, once known as the best second-story man in the business, is a country parson. Hoimon doesn't know how Luigi Castaloni is going to take this, but it isn't going to be sweet. He waits until he is safely back in New York before he pulls up in front of a drug store and dashes for the telephone booth. He dials a number and waits.

"Hello, Boss," he says between his teeth. "This is Hoimon—no, Hoimon the Hoist. Yeah, I got something to tell ya. . . Well, that's what I want to tell ya about. Ya see, we takes this mug MacPhillips out in the country like you said and. . . No, Boss, wait a minute. When we get there everything goes haywire. Yeah, that's right. We didn't get him."

"I still don't believe it, but if my eyes wasn't deceivin' me, MacPhillips has laid out Spike, Butch and Trigger Tim. . . Now don't be sore. I tell you, ya never saw anything like it. I thought I oughta get back and warn you. Ya see, on the way out, we spilled everything. We didn't figger he'd be coming back so we couldn't see no harm in tellin' him the facts of life. And now he is coming back, and I got a notion it won't be healthy for us—not for awhile at least. If you ask me. . . Boss, wait a minute. Are you still there?"

Hoimon clicks the receiver a couple of times and then hangs up. He goes over in his mind all the hideouts he can think of in the city and then he goes back to the car and drives away.

LUIGI CASTALONI is the least bit irritated. He should have known better than to trust Spike

and his gorillas. Up to now, life has been pretty smooth. There have been practically no hitches, but this is a tough baby. He supposes he'll have to clear out for awhile—at least until this thing blows over.

Maybe the cops won't believe MacPhillips. But if they get Spike and Butch and Tim, one of them will talk. And then there is MacPhillips himself. MacPhillips knows about the racket and he knows now that it is Castaloni alias Fitzwater who has stolen his girl.

Maybe that is the answer. Adoreen is a cute little dickens—a little on the Sunday School side, perhaps, but a pretty swell piece of furniture. He can take a powder out to that place up on Long Island that nobody knows about. It will be nice having Adoreen around while he waits for things to simmer down a little.

THE sun is going down when Castaloni pulls up in front of Adoreen's apartment. He walks swiftly through the lobby and into the elevator. When he gets to Adoreen's door, he is shaking a little and feels ashamed of himself for getting the jitters just because of a dumb lug like MacPhillips.

Adoreen isn't expecting Mr. Fitzwater tonight, so she is a little surprised when she sees him at the door. She is even more surprised to see that he isn't smiling and that his face is kind of white, except where there are dark pockets under his eyes that she has never noticed before.

"Why, Mr. Fitzwater, come on in," she says. She is figuring on eating dinner at home and going to the club later for her shows, so she is dressed in a cute little gingham house dress and low-heeled shoes that make her look like a high school sophomore.

"I came to take you for a drive, my dear," says Castaloni-alias-Fitzwater. "Hurry and throw a coat on. It's so nice out now."

"How lovely, I'd like that. But I just put some pork chops on and I'm not dressed. Stay here for dinner, Mr. Fitzwater, and after we've eaten I'll change my clothes and we can drive for awhile before my first show."

"No, no. Right away. Please hurry."

Adoreen doesn't know whether to be shocked or hurt. "Why, Mr. Fitzwater," she says. "What's the matter? There's no hurry."

"That's what you think."

"Have a drink. You'll feel better."

Castaloni comes toward her, and his face looks hard and wolfish.

"I feel fine. I never felt better in my life. I said for you to put on a wrap and come with me. Now quit stalling and let's get out of here."

Adoreen backs up against the wall. Her lips are quivering, and the red spots are gone out of her cheeks. "I'm not going with you," she says. "I don't know what's the matter with you, but I'm not leaving this apartment."

"Okay," says Castaloni, still walking toward her. "Then never mind the coat. It's warm out and there's a blanket in the car." He lunges at her and clamps one hand over her mouth. He sweeps her into his arms and heads for the door.

He looks carefully down the hallway before he steps out. Adoreen is kicking and struggling to break away, but it takes a strong man to get places in the broccoli racket, and Mr. Castaloni is the Broccoli King of all Manhattan.

HE goes down the back stairs, and when he gets into the arway, he sets her down. "There is a handy little gadget known as a gun in my pocket, Kitten," he says. "My trigger finger has no conscience, so I'd advise you to walk quietly from here to my car. Savvy?"

There are tears of terror in Adoreen's eyes, but she nods.

Castaloni's face is hard and decidedly unpleasant. "Grab my arm, Kitten, just as if I were the only man in the world you could ever love. Then let's move. Just walk and listen to me as if you enjoyed every word. That's it. You and I are gonna be together a lot for the next few weeks, so you'd better get used to it."

When they reach the sidewalk, Adoreen glances pleadingly at a young couple who are passing. But the couple pay no attention to her and Castaloni. It is just after she gets in the car and Castaloni is starting the engine, that she takes a deep breath and screams—screams through the open window of the car so that it seems like everybody from Harlem to the Bowery can hear it.

Castaloni's hand shoots out and slaps her across the face. "Shut up! Try that again and I'll put you to sleep for good."

He runs up the open window and spurs away from the curb. Some people are staring after the car, and Adoreen can see faces at some of the windows. Maybe they heard her scream. Maybe they will call the police. It is one hope . . . a slim hope . . . her only one.

Bass Lake state fish hatchery, 11. Wabash state fish hatchery, 12. Tri-Lakes state fish hatchery, 13. Riverside state fish hatchery, 14. Avoca state fish hatchery, 15. Deam Oak, 16. Tippecanoe battlefield, 17. Corydon state capitol, 18. James F. D. Lanier memorial, 19. Nancy Hanks Lincoln memorial, 20. Shakamak state park, 21. Spring Mill state park, 22. Pigeon Roost memorial, 23. The Mounds state park, 24. Morgan-Monroe state forest, 25. Jasper-Pulaski state game preserve, 26. Brown County state park, 27. Harrison County state forest, 30. Scales Lake state forest, 31. Ferdinand state forest, 32. Bass Lake beach, 33. Salamonie River state forest, 34. Wells County state game preserve and forest, 35. Lincoln state park, 36. Greene-Sullivan state forest, 37. Pike County state forest, 38. Frances Slocum state forest, 39. Constitution Elm, 40. Fawn River state game preserve, 43. Yellow-wood state forest, 44. Martin County land use forest.

### HIGHWAY NETWORK

A nine-thousand-mile network of modern state highways, linking together every community, is one of Indiana's major assets for richer enjoyment of the state parks, scenic areas and points of historic importance.

### RECREATION LAND

Cool nights, warm sunny days, evergreen forests, and an abundance of game fish and animal life, combine to make Bayfield county, at the Top O' Wisconsin, an ideal recreation land where visitors may enjoy the greatest variety of entertainment.

### SPECIAL GIFTS

Nature has endowed northern Michigan with special gifts which make it the ideal summer playground. It has in abundance those things which combine to offer a happy, comfortable, thoroughly worthwhile vacation.

### WATER FETE

On Aug. 3 and 4, the annual Water Fete will be staged at Escanaba, Mich. It is a picturesque event, with many aquatic sports.

### Make the Most of Play Time

## WPA Roll in State Will Hit All-Time Low First of July

Chicago, June 25.—(AP)—Illinois WPA employment will be at an all-time low when July's authorized quota of 66,500—compared with the current level of some 93,000—is realized.

Records of the works agency disclosed this today as officials took steps to whittle WPA jobs to the minimum made necessary by the sharply reduced relief appropriation act for the 1942 fiscal year, beginning July 1.

Regional WPA Director George H. Field, who is acting state administrator because of the recent death of Howard Drew, said general reductions would be made proportionately in the six districts of the state—Chicago, Rockford, Peoria, Decatur, East St. Louis and Herrin.

### Boundaries Unchanged

Field said that the vocational training program would not be reduced and that no changes in the number of district offices or district boundaries were contemplated. He added, however, that there would be proportionate reductions in the number of supervisory employees.

Stating that the reductions will be made "as fairly as possible," field explained that WPA workers "most nearly employable" in private industry and national defense work would be dropped first from the rolls.

Peak WPA employment in Illinois since the program was inaugurated some six years ago, was 247,000 in 1938.

### "PRAIRIE STATE"

Although named the "Prairie State," the north, west and south portions of Illinois offer the beauties of hills and bluffs, in places almost mountainous in appearance, to the traveler who will seek them out.

### TAKE YOUR CAMERA

It's a common sight to see deer wading along the lake shore or feeding on water plants along a river while vacationing in Wisconsin. Take along your camera if you like to photograph wild life.

### RELIEF!

Hay fever victims are guaranteed quick relief in Wisconsin—the land where worries and troubles disappear.

## Bond Quiz

Q. What is the price of a Defense Savings Bond?  
A. For the smallest bond, you pay \$18.75. The bond will increase in value in ten years to \$25. For \$75, you get a bond which will increase to \$100, other bonds are in proportion.

Q. What will the government do with the money I pay for my bond?  
A. Your money will be put to work at once in the National Defense program to protect the freedom and safety of the United States, and of all its people everywhere.

Note — To purchase Defense Bonds and Stamps go to the nearest post office or bank, or write for information to Treasurer of the United States, Washington, D. C.

## LAKE OF THE CLOUDS

Lying at the foot of the Porcupine mountains in the largest tract of hardwood forest in the United States, west from Ontonagon, Mich. on M-61, is Lake of the Clouds. The Porcupine mountains are the highest range of hills between the Adirondacks and the Black Hills—2,023 feet above sea level, 1,421 feet above Lake Superior.

### TROUT HATCHERY

The state trout hatchery at Hayward, Wis. is an interesting spot you'll want to visit. All species of trout are reared here in thousands each summer.

## Bemberg Sheer Dresses

**2.98**

Pretty new frocks—designed for hot weather. They'll have much to do with your comfort and chic when the temperature soars.

# Modern Vacationist Can View Unusual Sights That Rival Anything Seen By Alice on Trip Through Magic Mirror

Alice in Wonderland had nothing on the modern vacationist! America's Western Wonderlands contain many oddities just as amazing as anything seen by Alice on her trip through the looking glass. For example, on a single trip by Chicago and Northwestern Stages, travelers can see such unusual things as these:

Fish that fly, near Catalina island in southern California. Long, transparent wings enable them to sail for unbelievable distances several feet above the surface of the water.

Fish climbing a ladder, at Bonneville Dam, near Portland, Oregon. This unique fish-ladder consists of a huge concrete trough leading from the river level below the dam to the level above the dam. Low ledges at regular intervals form the steps of the ladder. As the salmon and other fish swim up the ladder, they frequently break water to clear these ledges with a resounding splash.

Water that won't let you sink, in Great Salt Lake near Salt Lake City, Utah. Evaporation has left this water so salty (27% solid) that bathers float like a cork, even if they never took a lesson.

The mountain that swallowed its head—ancient Mt. Mazama in Oregon. When the cone of this huge volcanic mountain collapsed, it created modern Crater Lake, 6 miles wide, 2,000 feet deep, and 7,000 feet above sea level—the deepest, bluest, clearest, and one of the highest lakes in America.

Eleven waterfalls in one mile, in the scenic Columbia River Gorge, Ore. One of these Multnomah—is the second highest waterfall in the United States.

Highest Waterfall The highest waterfall in America—higher than 11 Niararas—Yosemite Falls in California. The falls are only one of many spectacular sights in Yosemite National Park.

Windows in a mountain, in Zion National Park and also in the Columbia River Gorge. Cut through solid stone, these huge windows frame striking views of amazing beauty.

Steam-operated clock, in Yellowstone national park. Old Faithful geyser was so named because of the clock-like regularity with which it erupts (approximately every 65 minutes), hurling tons of scalding water and steam over 120 feet into the air. You can almost set your watch by it. Yellowstone also contains many other weird and unusual sights.

Castles in the air—of solid stone—a mile high in the Grand Canyon, Arizona. Fantastically carved by wind and water, these huge, brilliantly colored cliffs tower above the Colorado river and Lake Mead to heights of a mile or more—higher than any mountain range east of the Rockies—yet their peaks are below the level of the surrounding country on both sides of the canyon.

Upsidedown Mine Mine turned upside down, at Bingham, Utah. Instead of boring tunnels beneath the earth's crust and bringing out copper ore in the usual manner, the operators of this mine took the crust off first and do their digging right out in the open with huge steam shovels working on several different levels at the same time. It's a perfect set-up for "sidewalk superintendents." This is the largest open-cut copper mine in the world. The town of Bingham, incidentally, has one one street, three miles long, with houses and stores clinging to the canyon walls on either side.

Foreign countries right here in America! Chinatown in San Francisco . . . England in Victoria, B. C. . . Old Mexico in Los Angeles . . . and many other sections of western cities that seem to have been transplanted bodily from other continents all over the world.

Oldest and Largest The oldest and largest living things on earth—the giant Redwood trees in California. Many of them still standing today were old before the birth of Christ, and some are believed to have been standing 5,000 years! Towering to heights of 300 feet and more, with the sunlight streaming through their lofty branches, they remind you of a great cathedral, with the highway followed by your bus serving as an aisle through the center of the vast auditorium.

Hot water without a heater, at Boise, Idaho. Many homes in Idaho's capital city obtain a constant supply of hot water from natural hot springs, with never a worry about gas or electric bills for a hot water heater.

Trip to the moon—Craters of the Moon National Monument, near Sun Valley, Idaho. Scientists say this area is strikingly similar to the surface of the moon as seen through powerful telescopes.

Amazing as these oddities are, they are only a sample of the interesting things to be seen on a Western Wonderlands vacation, according to R. J. O'Connor, traffic manager of the Chicago & Northwestern Stages.

BASS LAKE Bordering beautiful Bass lake, fourth largest of Indiana's lakes, Bass Lake Beach is an attractive and popular outing place for swimming, boating, fishing, picnicking, and camping through the outdoor months. Across the lake, the Bass lake state fish hatchery is open to visitors at all times. There bass, bluegills, and other game fish are propagated.

SHIPPING CENTER North of Mackinac Island, where the waters of Lake Superior pass into those of Lake Huron, lies Sault Ste. Marie, of much interest as a center of Great Lakes shipping traffic and a delightful spot, with golfing and fine fishing in the "Soo" rapids.

CAMP'S Summer camps for boys and girls are well represented in northern Michigan.

TOURIST CAIRN A few miles north of Kewadin, Mich. on US-31, stands a cairn erected to the tourist industry of Michigan. It is built of rocks supplied by the 83 counties of Michigan—each rock inscribed with the county name. The cairn is located midway between the North Pole and the Equator, and from the spot on which it is erected, one may look on three counties—Antrim, Grand Traverse and Leelanau.

COWBELL FESTIVAL Wayland on US-131, north of Plainwell is the Cow Town of Michigan—the home of the Cowbell Festival. For three months during the summer season, this little town has weekly programs of entertainment in which everybody takes part. Every Wednesday night is a "night of the cowbell" and everyone taking part is a "Knight of the Cowbell." Incidentally, Wayland is the home of "Pet" milk.

ARTISTS' COLONY Over on US-31 is Saugatuck with the largest artists' colony west of New York. There are several schools and artists will be found at work, everywhere. The countryside offers every form and kind of subject.

MINT FARM Niles, Mich. boasts a mint farm (over 1,500 acres of it). Mint sauce . . . mint juleps . . . mint gum . . . mint candies—you have had some of them in your day, and more than likely, the mint came from Niles.

### Manistee Stages Forest Festival Early in July

Manistee, Mich., is the home of the Manistee National Forest Festival, which will be staged in an elaborate three-day program, July 3-5, and is more than just a Fourth of July celebration. It tells the story of the great pine forest of the past, the present and the future.

Included on the program and in displays will be champion saws, wood choppers, old-time and modern timber equipment, log birlers, oxen dances of an earlier era, a background of Indians, and an historical parade with lumbermen's orchestras and bands.

The gateway to the vast Manistee National forest, Manistee is but a 10-minute drive from the green wilderness where wild life is plentiful. There is good fishing in nearby lakes, and Manistee trout streams are famed throughout the midwest.

Manistee produces over 10,000 barrels of salt a day and is the home of Morton salt.

#### CALLING ALL GOLFERS

Lake Koshkonong at Ft. Atkinson Wis. is a spot to please a "golfer's eye"—for within a radius of a 12-minute drive, there are three sports nine-hole golf courses and one eighteen-hole unit. Well-kept, tricky and amply trapped, they'll give the golfer plenty to do while the family is busy at nearby lakes. Jefferson county waters received a consignment of 33,247,970 eggs, fry, fingerlings and adult fish last season.

#### TEMPERATURE

The annual monthly mean temperature at Indianapolis in the center of Indiana is 52.7 degrees.

### Doctor's Formula Helps Liver Bile Flow Freely

Right Way To Relieve Constipation and Feel "Tip-Top" In Morning

If liver bile doesn't flow freely every day into your intestines—constipation with its headaches and that "half-alive" feeling often result. So step up that liver bile and see how much better you should feel! Just try Dr. Edwards' Olive Tablets, used so successfully for years by Dr. F. M. Edwards for his patients with constipation and sluggish bile.

Olive Tablets, being purely vegetable, are wonderful! They not only stimulate bile flow to help digest fatty foods but ALSO help elimination. Get a box TODAY! 15¢, 30¢, 60¢. All drugstores.

# "We're Buying A CHEVROLET!"

### Today and Old Luce

In the good old days, Sam Splattersplash got his neighbors to come over in the evening and then went down and seined Big Fin creek and got suckers, bass, catfish and sunfish. Then they "passeled" the first out among the neighbors. When you harnessed Old Luce and drove to the creek to fish, the fishing was not so good. So, Mr. Splattersplash and his neighbors gradually got the creek to themselves and the men who drove out from town at five an hour went to some other water.

Today everybody goes fishin' by automobile at forty to eighty miles an hour. Sam Splattersplash has found that he can sell his strawberries to many a fisherman and that when they don't catch fish they might buy a dumpling-making chicken; so he's quit seining the creek and welcomes the fisherman. In fact, he's arranged a stack of firewood in his grove and will let you camp out there for a small fee. He's even thinking of running the rural electric line out to the grove and making a trailer camp.

In the days of Old Luce, women wore dresses that dragged in the dust, but today they dress in pants and go fishing, which is just something they couldn't do in the days of Old Luce. Fishing has improved because Sam and his neighbors have a conservation club and raise fish and quail. The smart guy from town who used to come out and shoot fish on the nests has got himself arrested; Sam saw to that, but the warden did not tell how he got his information. And there are thousands of service stations and restaurants making a living by catering to fishing folk.

Times have changed since Old Luce used to shy at every two-lunger automobile she saw on the road, and Sam's got a rubber-tired tractor and his son operates it and listens to the ball games while he plows corn.

#### PIONEER VILLAGE

A recreated pioneer village, grouped around a water-powered saw and grist mill, is one of the many attractions which make Spring Mill state park (near Mitchell, in Lawrence county, Indiana) a favorite outing place. Extensive underground caverns with their subterranean streams, tracts of virgin timber and the exhibit of utensils and implements common to the backwoods home of a century ago, share in the visitor's interest.

Rich in history and scenery and natural resources, the Hoosier state possesses every attraction for the tourist, the vacationist, and the sportsman.

#### ART GALLERY

In Muskegon, Mich. (a city 307 years old,) visit the Hackley Art Gallery on Webster avenue. It contains the works of such men as Corot, Hogarth, Constable, Gainsborough, Raeburn, Diaz, Lely, Penz, Whistler, Blake, Lock, Israels, and others.

#### INDIANA

Indiana was admitted to the Union as the 19th state on Dec. 11, 1816, one of five states formed from the Northwest Territory.

#### MACKINAC ISLAND

An emerald gem in a setting of sky-blue northern waters, Mackinac Island is a vacation paradise which offers interest, recreation and entertainment for everybody, regardless of special interest, hobbies or personal preferences. Its well-preserved relics of the Indian wars—Fort Mackinac, Chimney Rock, Devil's Kitchen, Skull Cave and Pontiac's Lookout—invite exploration, while modern hotels, equipped with every convenience, and lavish nature provide every means for play and sport as well as rest.

#### RIB MOUNTAIN

The highest point of land in Wisconsin, Rib Mountain (1,940 feet above sea level) is much more than just an ancient landmark for all mid-Wisconsin. It is the scene of one of the fabulous folk tales of Paul Bunyan, mythical giant of the logging camps. Rib Mountain, a huge lump of granite in the palm of Wisconsin's mitten, lured Paul to climb its heights—as it lures many visitors still.

#### STRAW HAT THEATER

The Ironton, Mich. Playhouse is a popular place during July and August. A group of talented players present theatrical productions to throngs of guests.

### Facts About the Hoosier State

Indiana is nationally-known for the Indianapolis Motor Speedway; for the production of Bedford limestone; for the Calumet industrial area with its steel mills and petroleum refineries; as the burial place of Nancy Hanks Lincoln; as the home of James Whitcomb Riley and numerous other writers, painters, poets and leaders in professional also. Also as the location for one of the early communistic social experiments at New Harmony; as national headquarters of the American Legion—in Indianapolis; as the center of population for the United States—near Linton; and for an unexcelled system of state parks.

#### SAND MOUNTAINS

Marching sand mountains, the rustle of a forest and the beating waves form the background of Indiana Dunes state park (near Chesterton, in Porter county, Indiana) which stretches for three miles along the southern tip of Lake Michigan. It is a playground for thousands during the outdoor months and a laboratory for nature study throughout the year. Established in 1925, it embraces an area of 2,220.62 acres.

#### HISTORIC STATUE

"Black Hawk" statue, which attracts the attention of thousands of passersby to Eagle's Nest bluff on the east bank of the Rock river near Oregon, stands 48 feet high on a base 18 feet square and contains 2,275 cubic feet of concrete. Reinforced with steel rods, it weighs 536,770 pounds, and will withstand pressure of 657,785 wind pounds. It was donated to residents of Illinois by the late Lorado Taft, Chicago sculptor.

#### LINCOLNIANA

Springfield, the state capital of Illinois, abounds in Lincolniana, and contains the old State House, now used as the Sangamon county court house. It was on the second story of this old State House that Lincoln delivered his famous "House Divided Against Itself" speech which first brought national attention to him.

#### MOUNTAINOUS SCENERY

The Baraboo Hills of south central Wisconsin, remnants of an ancient mountain range, give Wisconsin some of the most unique mountainous scenery to be found anywhere in the midwest. And nestled deep in the heart of these rugged rocky hills is Devil's Lake park, 1,313 acres surrounding the lake itself.

### Rock River Affords Gamey Fishing; Telegraph Sponsors Re-Stocking

—Telegraph Photo

Fly casters and pan-fish enthusiasts find gamey fishing in beautiful Rock river with an abundance of wall-eyes, crappies, blue gills, pickerel, sheepshead, catfish, and several species of bass waiting to flaunt their ticks against the skill and science of the fisherman.

The first consignment of fish from federal hatcheries to be placed in the Rock river in several years was released Wednesday, Jun 11, when about 10,000 big-mouth black bass fingerlings were absent of a sportsmen's organization parking space east of the Chamber of Commerce building. This restocking program was sponsored by The Dixon Evening Telegraph and was accomplished through the co-operation of Congressman Leo E. Allen of Galena and his secretary, Lyle O. Snader, of Dixon.

Three members of Boy Scout troop No. 89 assisted department of fisheries employees release the fingerlings, which were transported in specially-designed steel tanks from the federal hatchery

at Fairport, near Muscatine, Iowa. The re-stocking "crew", is pictured above and includes (right to left): Harold Salzman, "Bus" Egler, Dwight Fulmer, Ira Dusenberry and George Davis. Dusenberry and Davis are federal hatchery employees.

"As long as I can remember, The Evening Telegraph has sponsored the re-stocking of Rock river for the recreation of fishermen," remarked a veteran Dixon angler recently, in expressing his appreciation for the placing of the large-mouth fingerlings in the stream earlier in the month.

"The Telegraph has supported every measure to make Rock river a better fishing stream, and in the absence of sportsmen's organization in Dixon at the present time, I want to express my appreciation for this generous and progressive action," he said.

#### IDEAL FISHING

Fishermen in Wisconsin are celebrating an unusually early spring and ideal early-season fishing conditions with near-record catches throughout the state's fishing country. The state's program of fish planting is helping to produce baskets of trout that remind the veterans of the "old days."

#### HISTORICAL MEMORIALS

Randolph county is rich in historical memorials, with Fort Chartres, Fort Kaskaskia, Garrison Hill cemetery, and the Pierre Menard Homestead all within its borders.

#### WARNING!

Hundreds of years of nature's handiwork can be destroyed in a few minutes by leaving behind a lighted campfire, a burning match, or cigaret.

#### LINCOLN MEMORIAL

Amid the rolling wooded hills of Spencer county, Indiana, the Nancy Hanks Lincoln Memorial and adjoining state park form a part of Indiana's tribute to the Great Emancipator and his mother. On neighboring hillsides in the memorial area are the grave of Nancy Hanks Lincoln and the site of the cabin to which Thomas Lincoln brought his family from Kentucky in 1816. Hearststones from the Lincoln cabin are a part of the memorial.

#### DEATH SITE

The death site of the great missionary, Father Jacques Marquette, is located across the channel from Ludington, Mich., and is suitably marked with a great cross. The beach at Ludington is rated as one of the finest in Michigan, offering an outstanding recreational program for children and young people.

## TO YOU WHO SWEAR BY OIL-PLATING....

Still less engine wear—still more oil Economy —from this proved New oil that still brings OIL-PLATING

Single 5-quart fill defies Death Valley for 13,398 miles...Certified

The celebrated Conoco Germ Processed oil patent first made it possible for Conoco to bring your engine OIL-PLATING—lasting lubricant with magnet-like attraction for inner engine surfaces. Thus OIL-PLATING can't all quickly drain down—fry up—"rub out" fast. And this same Germ Processed oil patent still assures an OIL-PLATED engine, after you change to the sensational new oil by Conoco...

Its name is CONOCO N<sup>th</sup> MOTOR OIL —Brings new Economy aid, besides OIL-PLATING

This popular-priced new Conoco N<sup>th</sup> oil that OIL-PLATES, can protect itself against today's worst cause of rapid consumption. How?...Just consider one truth about latest oil refining methods. Ridding oil of bad things may sacrifice some of Nature's best life-givers! The same happens, you know, in processing some foods. But today that loss is often made up by vitamin synthetics...man-made. And today the vigor otherwise sacrificed in any proper refining is more than made

#### IMPARTIAL

Latest available products of 5 leading competitors bought retail by Referee. Identical new cars broken-in alike, after engines had been taken apart for Referee to check uniformity.

up by patented Conoco Thialkene inhibitor...man-made...in Conoco N<sup>th</sup> oil.

Lasted 74% to 161% longer than 5 other big-name oils in fierce fair test

Across the Death Valley desert Conoco N<sup>th</sup> wrote E-C-O-N-O-M-Y. Locked in the engines of 6 new everyday cars—all alike—were 6 prominent oils, including Conoco N<sup>th</sup>. One 5-quart fill per car. Never another drop. No mercy. 57 miles an hour under impartial observation—under sun that'd singe you—till each fill gave out and the engine was junk.

Conoco N<sup>th</sup> outlasted the next-best oil by 5,683 miles; outlasted the worst by 8,268 miles; outlasted the average of all 5 others by 7,057 miles. All certified. But you don't put your car through tor-

ture-tests. For authorities warn you to change oil at regular intervals. No quarreling with that! Now, however, as you change to Conoco N<sup>th</sup>...the greater new oil that OIL-PLATES...set your speedometer-trip at 000. Keep track—and certify Conoco N<sup>th</sup> economy for yourself. Continental Oil Co.—Pioneers in Bettering America's oil with Synthetics

**CERTIFIED** I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

*H. M. Jackson*  
Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

Reporter and Local Circulation  
Representative

Field day will be observed Wednesday, July 2, at the Mount Morris soil experiment field which is operated in conjunction with the Illinois college of agriculture. The program will begin at 10 o'clock and those attending should bring their own lunch or plan to eat at the downtown restaurants for their noon meal.

This year new varieties of flax, soy beans, wheat, oats and hybrid corn will be compared and a comparison will be made of different cropping systems which emphasize the importance of organic matter and a suitable rotation in soil conservation. Records of the field show that limestone is returning a value of \$24 a ton on the field and phosphate and potash are proving valuable in growing hybrid corn. Farmers from

Ogle and neighboring counties are expected to attend this annual field day at Mount Morris.

Miss Jane Dennis, whose approaching marriage to Delbert Schell has been announced as an event of Saturday, June 28, was the guest of honor at a miscellaneous shower at the Pines Monday night. Forty-five co-workers at the Kable News were present and presented the future bride with many beautiful gifts for her new home. A picnic supper and wicker roast preceded the shower. Hostesses included the Mesdames Beatrice Rock, Francine Glen, Helen Ballard, Helen Hollinger, Marian Miller, Betty Smith, Vivian Poffenberger and the Mesdames Rebecca McNett, Ethyle McNett and Ruth Parkinson.

Funeral services were held at Batavia today for Miss Frances Allen, sister of Mrs. Alva Booth, who died Sunday at the Deaconess hospital in Freeport where she had been a patient the past three weeks. Miss Allen was born Feb. 13, 1855 in Lexington, Indiana, the daughter of Frank and Lucy Allen. She is survived by her sister, Mrs. Booth of Mount

Morris, with whom she made her home.

Miss Louise McChesney is spending the week in Waukegan as a guest of Mr. and Mrs. Elmer Johnson and Mr. and Mrs. Glen Gunderson. The ladies were classmates of Louise.

Mrs. Rosa Gibbs went to Aurora this week to spend some time with her sister, Mrs. Tom Cherry.

Mr. and Mrs. Henry Schulte, Mr. and Mrs. David Findley and Mr. and Mrs. Roy Avery spent the week-end at Louisville, Ill., where they attended the wedding of a niece of the ladies. Mrs. Avery remained for a longer visit with her mother, Mrs. Catherine Link.

### First Illinois Coal For Great Lakes Port Under New Rate Sent

Chicago, June 25.—(AP)—En route here today by rail from West Frankfort was a 1,000-ton coal shipment, the first under the \$1.65 a ton rate authorized last spring by the Interstate Commerce Commission for transshipments from Chicago to ports on Lake Michigan and Superior.

The new rate, 40 cents a ton under that applicable to track deliveries in the Chicago area, puts Illinois shipments on a more favorable basis to compete with eastern coal benefitting from cheaper water rates.

The initial Illinois shipment — from the Old Ben Coal Corporation — was reported destined for Green Bay, Wis.

### Illinois University Board Makes Changes

Chicago, June 25.—(AP)—College of Agriculture graduation requirements henceforth will call for 130 semester hours at the University of Illinois, an increase of 10 hours.

This was one of several actions taken yesterday by the board of trustees. Another gave approval to a summer visual education program at National Youth Administration defense training centers under supervision of the university's extension service.

Gifts of some \$35,000 for research, scholarship and other purposes were accepted, including one for \$1,500 from former students and colleagues of the late Professor James W. Garner, former head of the department of political science, for a loan fund for political science students.

Italy is eight times longer than its average width.

### WAKE UP YOUR LIVER BILE —

Without Calomel—And You'll Jump Out of Bed in the Morning Karin' to Go

The liver should pour 2 pints of bile juice into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then gas builds up your stomach. You get constipated. You feel sour, sick and the world looks punk.

It takes those good, old Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Take as directed. Amazing in making bile flow freely. Ask for Carter's Little Liver Pills, 10c and 25c.

### Open Seasons for Game Fish

License—Resident, \$1, for use of rod and reel and for 2 lines; non-resident, \$3 for rod and reel and for cane pole.

#### STATE WARDS TO TRIAL

Geneva, Ill. —(AP)—Two Chicagoans, Raymond Raducke, 19, and Alfred McCann, 16, will be arraigned Friday on charges of assault with intent to kill Lyle Elliott, 46, a housefather at the St. Charles School for Boys, during an unsuccessful escape attempt May 28. The charges were contained in an indictment returned by a Kane county grand jury.

You are losing out if you fail to read the classified ad page.

### Britain Files Protest Against Riots in Spain

London, June 25.—(AP)—The British government is energetically protesting against a riot outside the British embassy in Madrid, it was announced today.

Authoritative quarters declared the disturbance involving between 300 and 400 men wearing Falangist uniforms "was carefully organized and staged by Germans."

"The object was to provoke bad relations between Great Britain and Spain," these quarters said, adding that British Ambassador Sir Samuel Hoare had taken up the matter with the Spanish government while Foreign Secretary Anthony Eden protested to the Duke of Alba, Spanish ambassador to London.

Most of the windows of the embassy were broken and several cars on the property were damaged, it was said.

Letterheads and envelopes of high class material and workmanship—B. F. Shaw Printing Co.

### ALL GRADS EMPLOYED

Champaign, Ill. —(AP)—The University of Illinois reported that all 710 civil engineering graduates who answered a recent questionnaire reported that they were employed—half in government agencies, half in private employment.

Correct—social stationery, in-formals and visiting cards, in variety at the B. F. Shaw Printing Company.

OLDSMOBILE'S HYDRA-MATIC DRIVE PUTS CLUTCH PEDAL ON THE BENCH!

A clutch pedal plays no part in the game, when you drive a Hydra-Matic Oldsmobile. Hydra-Matic Drive eliminates the clutch pedal completely—and it's the only drive in the world that does. Hydra-Matic eliminates manual gear shifting in the forward speeds, too—and that, again, is an exclusive Hydra-Matic feature.

Other devices have names that imply automatic driving—make claims to "no-clutch, no-shift" operation, under certain conditions. Yet, no matter what the others say, these facts remain undisputed: Only Hydra-Matic is completely automatic! Hydra-Matic steps up get-away, saves gasoline and enlivens all-round performance.

Try Hydra-Matic and you'll quickly conclude it's the only drive for you!

## DIXON LIONS ARE PLANNING INVITATIONAL DINNER-DANCE MONDAY AT COUNTRY CLUB

The Dixon Country club will be the destination of Dixon Lions, their ladies, and invited guests on Monday evening, when the clubmen will be hosts at a dinner-dance, honoring newly-elected officers of the club. The event is certain to be one of the season's gayest parties, and gives promise of becoming an annual affair.

Dinner will be followed by an installation ritual, to be conducted by A. Reeder of Sterling, zone chairman of the Lions' international organization. Afterward, there will be an entertainment and dancing.

The new officers who are to be installed include: President, Harry W. Bates; first vice president, L. W. Hinkle; second vice president, Eldon Myers; third vice president, Hal Mateer; secretary-treasurer, Elwin S. Wadsworth; lion tamer, William V. Slothower; tail twister, Nathan Kaiserma; directors, J. L. Glassburn, Ben T. Shaw, John Vandenberg, and Carl Plooman.

George McGraham is the retiring president.

## PLAN CANNING DEMONSTRATION

Mrs. Marian Green, former home adviser of Vermillion county and a graduate of the University of Illinois, will conduct a canning demonstration at 1:30 p. m. Friday in the auditorium of the Lee County Farm Bureau office at Amboy. The public is invited to attend.

## LUNCHEON GUESTS

Mrs. Harry Beard entertained at luncheon on Monday for Miss Charlotte Self of Palo Alto, Calif., and Miss Marie Gallagher of Paw Paw. Miss Self expected to leave today for the west coast.

## FROM ITHACA

Mrs. W. D. Hart and her daughter, Jeanne, have returned from Ithaca, N. Y., after attending commencement exercises at Cornell. Mrs. Hart's son, Wilbur, received a bachelor of science degree in administrative engineering, and about July 7, will go to New York City, where he has accepted employment with the American Telephone and Telegraph company.

While in the east, Mrs. Hart and her daughter were guests of the Robert Cushman in Ithaca, at whose home Wilbur is stopping before leaving for New York. Mr. Cushman is a professor of government at Cornell, and Mrs. Cushman is a writer.

Mrs. Cushman is author of the prize-winning murder mystery, "I Wanted to Murder," appearing recently in "Good Housekeeping" magazine, a publication in which another of her stories, "The Young Widow," was concluded this month.

Jeanne expects to leave Sunday for Evanston, to resume her study at Evanston hospital.

## RONNIE TOOT REACHES THREE

Mrs. Raymond Toot was hostess at a morning birthday party yesterday at Mrs. P. O. Heckman's kindergarten, entertaining eight young classmates of her little son, Ronnie, who was celebrating his third birthday anniversary.

Each party-goer was presented with a balloon. Sharing Ronnie's birthday cake were Barbara Derby, Gwen Sykes, Jane and Judy Goldthorpe, Maxine Mack, Delores Newman, Wally Krug and Roger Johnson.

## AT WESLEYAN

Miss Jane Elizabeth Bogue, daughter of R. W. Bogue of 312 South Ottawa avenue, has completed a course at Illinois Wesleyan university in Bloomington. She expects to enter the Wesleyan school of nursing to continue her study.

Miss Bogue was graduated from Forrester high school and is a former Dixon high school student. She was a member of the Dixon staff, Commercial club, Literary society and Latin club. She won first in the district and second in the state violin contest.

## FROM WATSEKA

Mr. and Mrs. Allan Wendt of Sterling and Mrs. Gertrude Hill have returned from Watseka, after spending a few days with Mrs. Hill's sister, Mrs. Henry Buhrmeister. Mr. and Mrs. Orville Webb who accompanied the trio, remained for a longer vacation in central and southern Illinois.

On Sunday, a family gathering was held at McFerren park at Hoopston.

## PALMYRA CLUB

Members of the Palmyra 4-H club met Tuesday with their leader, Mrs. Robert Straw. The program included: "Color Arrangements," Carolyn Deprey; "Posture," Luverne Duprey; "Pressing Seams," Viola Myers; "Proper Undergarments," Bessie Book; games, and sewing. Another meeting was planned for next Tuesday.

## Seaside Honeymooner

**SMART** for the trousseau of the June bride who plans to spend her honeymoon on a boat or at a seaside resort is this one-piece, coverall slacks suit in white with navy blue stripes. The beautifully designed bag, with marine emblems and white stars on a blue background, is chic with any costume.

## IN MICHIGAN

Miss Marjorie Blewfield left Wednesday for a month's stay in southern Michigan. She will act as counselor and supervisor of music and dramatics at Camp Warren on Lake Michigan.

## RETURN FROM SOUTH

Eighteen - hundred additional miles were registered on the speedometer of their car, when the Misses Anna Marie Hoberg and Sarah Carson returned the first of the week from a vacation trip through the south. Their itinerary included the Smoky mountain region, and Louisville, Ky., where they visited relatives.

## LUNCHEON FOURSOME

Mrs. Cal Tyler entertained four guests at luncheon and bridge today in honor of Mrs. Roy Ide of Springfield.

## AT "HAZELWOOD"

Mr. and Mrs. John Stephan of Chicago have been spending a few days at the Walgreen estate, "Hazelwood."

Mr. and Mrs. Torrence Harper and Mr. and Mrs. Wayne Weaver spent Sunday in Dowers Grove with Mr. and Mrs. Irvin Harper and daughter. Mrs. Harper remained to spend a week in the home of her son.

Betty Jean Rebeck is spending a few days in the country with Dona Jean Craig.

Mrs. Harvey Schwenk entertained her bridge club this afternoon at her home on W. Mason street.

## Band Concert

The band will play its weekly concert this evening in the square on Mason street. Mr. Rose and the boys and girls are working hard to give us these concerts, why not show our appreciation of their efforts by at least applauding.

Mr. and Mrs. James Marshall of DeKalb visited in the Roy Beck home on Sunday.

Miss Madeline Crouch is caring for Mr. E. N. Mount.

Mrs. Roy Beck and daughter, Naomi were shopping in Dixon recently.

The Woman's Council of the Christian church is meeting this afternoon in the church.

Donald Hawn of Oregon, the six year old grandson of Mr. and Mrs. Sam Geary who has been visiting in their home was taken very sick Monday evening but is very much improved at this writing.

The Sweet reunion will be held Tuesday evening.

Miss Dorothy Reed and Max Weaver spent the week end in the Arthur Reed home at Rockford.

The people that put on the rodeo here last Sunday were so well pleased with the crowd that turned out to see it, have decided to show in Rockford on Sunday June 29.

Mr. and Mrs. Kenneth Knapp arrived home Sunday morning from a month trip through the west including Yellowstone Park.

The young peoples missionary circle of the Evangelical church

met with Mrs. John Kline on Tuesday evening.

## Ex-Convict Is Found Shot Beside Highway

St. Louis, June 25—(AP)—Shot three times in the head, a man was found beside highway 66 in St. Louis county early today.

He still was alive, and attempting to talk, when state highway patrolmen arrived. He died en route to a hospital without making a statement to the officers.

Among identification cards found in the dead man's billfold was an Indiana state automobile driver's license issued to Charles Bailey, 37, Evansville, Ind.

Sheriff Arnold Willmann, announced the man had positively been identified as Bailey by his fingerprints. Police records listed Bailey as an ex-convict.

A key enabled officers to trace the dead man to a hotel in East St. Louis, Ill., where he had registered yesterday. Hotel clerks said he stayed there frequently and they knew him as a race-track follower and gambler.

Highway patrolmen advanced the theory Bailey was shot while riding in an automobile and then was thrown to the side of the road. The three bullets entered his head within a two-inch circle near the left ear. There was a fourth bullet hole in the right wrist, apparently received in putting up his hand to cover his face.

Colombia is South America's chief gold producer.

## Vacation Experiences

(Continued from Page 1)

him say: "Gee, Mom, it is great to be up here away from the city... don't you wish dad could be here!"

It was just a trail that led off into the woods, but they turned their car into it and drove to where a felled tree crossed in front of them. Here they stopped and, sitting on the tree, they had their lunch. The sound of water rushing over stones reached them on the breeze, and, following the sound, they came out upon a bank where a stream rushed down the hill over rocks and fallen timber. The water gurgled and sang in the sun. They stretched out on a bare rock and became a part of the great outdoors. Down the stream a doe came out to drink. She crossed the stream and disappeared into the woods. All this they saw as they lay on the rocks.

Last Sunday I stood at an intersection and watched the flow of cars go by on the pavement. Joining the stream at about 35 mph, car after car roared by me. I watched the tense faces of the drivers... the set and determined faces of the passengers. They were going some place and going fast.

Turning off the main highway, I traveled a country road... and here, too, I found cars, but they were traveling slowly. I found some parked beside little streams... under the trees. I saw children building dams... older folks reading books and papers... some stretched out sleeping or looking up at the sky.

I felt my own muscles relax after the tenseness of the pavement driving. I began to notice the birds, the flowers, the landscape. I went to bed that night and almost instantly dropped off into restful sleep. I shall travel more of the byways.

They met at their noonday lunch club back in the city after the vacation trips. Said one... "Gosh, I'm tired. Just got back from my vacation. Had a great time... drove 400 miles one day. Had a regular schedule and hit it right on the dot. We came home tired and it will take us a couple of weeks to get rested up, but we had a great time."

The other smiled, "I just got in yesterday from my vacation. We had no set plans. We stopped where night overtook us. We stayed at farm houses... roadside camps... in hotels... at resorts. Sometimes we never touched the car for a couple of days. Some days we drove only fifty miles. Nope, we didn't go so far... but we had a great time and we came home feeling great... and ready to get back to work."

The car behind them sounded an angry horn... then swung wide and dodged back with a roar from the exhaust... just missing the car that was hurtling towards them. Soon both cars were specks in the distance. The occupants in both missed the bank of violets alongside the road... and the marigolds that made a carpet of gold in the black soil of the ditch. Both missed the partridge that was strutting on the log where the logging road opened onto the main highway. Both missed the song of the bird in the tree over the road spring... yet these two in the car that was loafing along the highway saw all these things and their vacations were made richer for the experience.

## Ranks First

The White Pines state park in Ogle county led all other state parks in attendance for the first four months of this year with an attendance of 47,822.

Second in tourist popularity was Lincoln's tomb in Springfield, with an attendance of 39,862, an increase of more than 70 per cent over the same period last year.

and learning more about the geology, the trees, flowers and birds, a nature guide is stationed at Turkey Run. Hikes and illustrated lectures are a means of increasing the knowledge and appreciation of the visitors interested in these subjects.

## Special Events

## Going to Canada? DEER PARK, DEEP IN INDIAN LORE

If you are planning a vacation trip into Canada, you will be interested to know that ferries leave the American side at 7:30 a. m. and every half hour until 11 p. m., and leave the Canadian side at 7:15 a. m. and every half hour until 10:45 p. m.

Returning Americans will have no trouble entering their own country. No red tape... no birth certificate needed.

### LUMBER CAMP

If you are interested in seeing a real lumber camp, you will find one in full operation southeast of Mancelona, Mich.

camp at the place now known as Sandy Point, where they were protected on three sides by precipitous cliffs.

The nearby canyons provided them with fresh water from the mineral springs and with meat from the deer which were driven into the lower canyon from the Vermillion river entrance.

In 1725, a blockhouse was built by French trappers and traders on the old Indian trail which is now Route 71. During the warfare between the combined Ottawa and Potawatami tribes, and the Illinois, this blockhouse was burned and its occupants killed. Those of the Illinois Indians then at Deer park were attacked from the direction of the Vermillion

river, driven into the canyon and slaughtered.

The canyons, woodlands and farms which now form Deer park were acquired at the close of the last century by the late F. W. Matthieson of LaSalle, who preserved the beauty of the place and, by building its roads, bridges, and trails, made it accessible to those who appreciate its natural beauty and historical background.

The park opens each year on May 1 and is kept open as late in October as weather will permit in order that visitors may have the opportunity of viewing the gorgeous fall coloring in the leaves.

Temperatures on Mars at night are as low as 11 degrees below zero.

# RAILWAY LABOR UNION DEMANDS WOULD COST 900 Million Dollars A YEAR

THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year—although their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent—averaging 47 per cent—and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

## THE WESTERN RAILWAYS

Union Station, Chicago, Ill.

## Motorists to

(Continued from Page 1)

colorful trails and tablelands of Nebraska.

**Foremost Park**  
Continuing through the great "badlands" of North Dakota, the bluegrass regions of Kentucky, the historic sites of Mississippi and the rocky river gorges and lovely glens of Wisconsin, Wyoming with its Yellowstone national park, greatest in the world, its sweeping hills and broad lands, South Dakota, where Washington, Lincoln, Jefferson and Roosevelt are being sculptured into the side of a mountain for time immemorial—down through the heart of America.

Or the traveler on his way to either New York or San Francisco, may go through Idaho, Montana, Nevada or Utah—each state a wonderland of scenic delight.

New Mexico and Arizona—lands of mystery and ancient rites, where the hills of Cliff Dwellers still echo an age of civilization and craftsmanship among the Pueblos and Hopis and other southwestern tribes; where the desert and the motoring age meet in a blend of inspiring beauty.

You may be visiting Kansas, Michigan or Illinois or through the deep South; Louisiana, Texas, Alabama, Georgia, Florida, the Carolinas, Virginia—wherever your car takes you, it will bring new discoveries, the like of which you may never have dreamed of but which once having experienced, will enrich your life immeasurably.

For the United States is a nation, not only of people, but of beauty. In every state, in every section, there is something unduplicated anywhere else in the world. It is yours to see and

marvel at and of which to be proud.  
**MAKE YOUR MOTORING TRIP THIS YEAR AN EDUCATION AND A RARE EXPERIENCE. LET'S GO—SAFELY.**

## Scenic Beauty

(Continued from Page 1)

the area which was already widely known and used by picnickers and nature lovers, was to be sold. The group which had sought establishment of a state park as a memorial to Indiana's century of statehood, was successful in raising funds by subscription and legislative appropriation to purchase the area.

### Hiking Trails

Miles of hiking trails threading the forest and the canyons reveal the varied scenic beauty of Turkey Run and provide opportunities for the study of birds, trees, plants and geologic formations in which the park abounds.

The history of Turkey Run begins far back in the centuries, before the glacial movements and the coal-forming ages, with the elements carving out the deep gorges through the Mansfield sandstone. Today it is a fertile field for the student of geology.

Equally valuable to the botanist are the countless species of plant life which flourish under natural conditions throughout the park today, just as they have through the years. The sycamore, the wild cherry, the dogwood, red-bud and many other native trees add to the importance of the park.

In such an area, it is not surprising that more than 200 species of birds, including the migratory species, have been identified and that Turkey Run is regarded as an ideal place for the study of birds. To aid the visitor in identifying

## Leads All Other State Parks In Attracting Visitors

White Pines Forest State Park

Beautiful White Pines state park, located in adjoining Ogle county on the Polo-Oregon highway, led all other state parks in attendance for the first four months of this year with an attendance of 47,822. In this 315-acre tract may be seen the southernmost growth of the once-plentiful Wisconsin white pines—century-old trees that will never know the woodman's ax, protected as they are under state legislation.

Both national and state park departments devoted several years to improvement of the Pines park, until now it has no equal as a recreation center in the midwest. The picture above shows a section of the towering bluffs through which the Pines creek has cut, and a rustic bridge, built under the direction of the National Park department.

A number of rustic cabins, completely equipped with electricity and steam heat are in constant demand, both winter and summer, by parties desiring to remain for several days or longer in the midst of a natural setting that is nationally-known.

### NEARBY VACATION LAND

Get a thrill out of your vacation this summer—go to Southern Wisconsin Lakelands—your nearby vacation land. Every vacation

thrill awaits you—boating, swimming, golfing, fishing, riding, dancing, "night-clubbing", hiking, picnicking, sight-seeing—places to go—people to meet.

### FIFTY-POUNDER

The lake trout season is off to a flying start in both Lake Superior and Lake Michigan. Already a fifty pounder has been

caught in the Apostle Islands region, off Bayfield in Lake Superior, and another fisherman landed a 42-pound laker this month.

## OREGON

MRS. A. TILTON

Reporter

Phone 152-Y

If You Miss Your Paper Call James Kelly, 272-X

### Closing Meeting

Mrs. E. D. Lander will entertain the Rest Room club at a 1 o'clock luncheon Thursday. It will be the final meeting of the club during the summer.

### Surgical Patient

Mrs. C. Kouch is convalescing from a major operation at Dr. L. Warmolt's clinic.

### Attended Rally

Mr. and Mrs. Burns Bacon, Mesdames Anna Thayer and John Arhogast attended a Townsend club rally at Lord's Park in Elgin Sunday. Dr. Francis Townsend, Russell Seville and Herbert Harrison were the principal speakers.

### At Camp

Curtis Meyers is acting as instructor at Camp Hastings this week. Tom Sweeney is also spending the week at the camp as guest of the Chicago Motor club as a reward for being selected as the outstanding patrol boy of Oregon grade school the past year.

### Summer School

Misses Flo Finkbner and Hilda Marucci are attending summer school at Northern Illinois State Teachers college at DeKalb. Classes began Monday.

### Dessert Bridge

Mrs. Ivan Kuntzelman was hostess to her club Tuesday at dessert bridge.

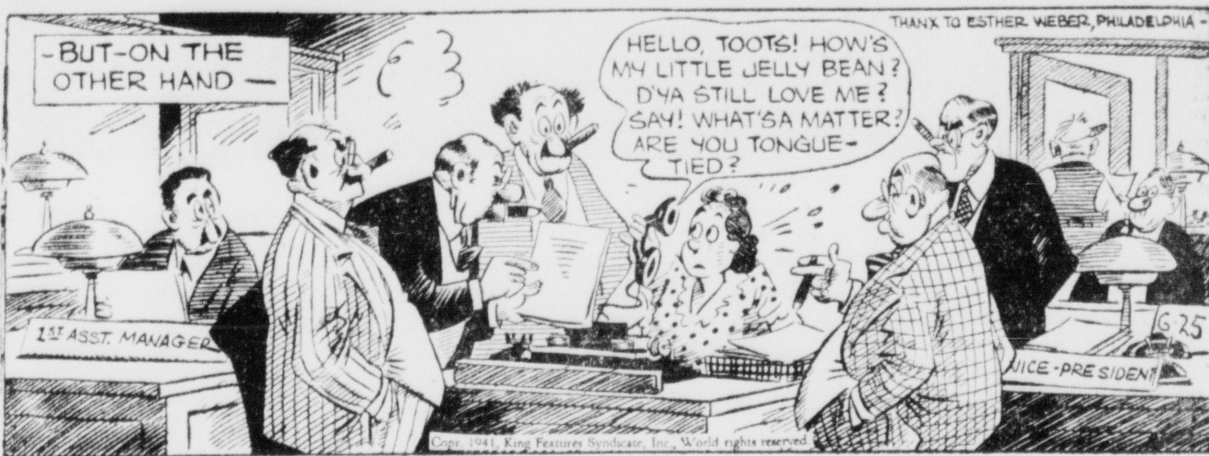

### Personals

Clark Farrell, who has been spending a two weeks' vacation with his mother, Mrs. Fayette Waggoner and grandmother, Mrs. Harmon Stone, left Monday to return to Salt Lake City, Utah, where he is employed as mechanic with the American Airlines.

Mrs. Charles Dugdale is spending several days in Rockford, assisting in the care of an aunt, Mrs. Charles McNally.

Miss Adelaide Jenkin who the past nine months has been in Minneapolis, Minn., and employed at

## They'll Do It Every Time

the Northwestern bank, has returned home.

Lester Tremble entertained guests Monday, Mr. and Mrs. Max Best of Birch Run, Mich.

Mrs. G. M. Abbott, R. N., of Oregon, is caring for Miss Grace McNally of Pine Rock township who has been a patient the past three weeks at the Rochelle hospital.

Mrs. Henry Hurd left Tuesday to return to her home in Minneapolis, Minn., after spending ten days with her mother, Mrs. Charles Grant.

Mrs. Carl Anderson went to Batavia Wednesday to spend several days with her mother, Mrs. Alfred Larson.

Mrs. L. A. Walberg had the pleasure of a visit the past week from her son and family, Mr. and Mrs. J. E. Walberg and son, John of Colorado Springs, Colo., and also her grandson, Donald Walberg of Oshkosh, Wis.

Mr. and Mrs. Harold Elliott and daughters and their guests, Mr. and Mrs. Charles Brierton of Chicago, attended a family dinner Saturday at the home of Mr. and Mrs. Fred Haye.

Raymond Behler and sister, Miss Norma Behler of Sycamore and Marvin Wear of Dundee were visitors Friday at the home of Mr. and Mrs. C. J. Behler.

Miss Ruth Wachlin has returned from Lena where she spent a week at the Grover Shippee home.

Mr. and Mrs. Roy Van Dyke and family of Galveston, Texas, are guests at the Samuel Purttman and James Fowler homes.

Frank Mahan of Dixon, Mr. and Mrs. H. R. Maysilles and Mrs. Minnie Harris were dinner guests Sunday of Mr. and Mrs. Frank C. Taylor at Freeport.

Betty and Herbert Hoover of Dixon are spending the week with their grandparents, Mr. and Mrs. H. R. Maysilles.

Misses Julia and Rebecca Ross of Detroit, Mich., were week-end guests at the Harold and Charles Ross homes in Mount Morris and

the Douglas Ross home in Oregon. They were accompanied home by their mother and sister, Mrs. Elizabeth Ross and Miss Virginia Ross who had been visitors in Oregon and Mount Morris for a week.

Miss Frances Reed, of Chicago is a visitor for a week at the home of Mr. and Mrs. Fred Hardy.

### FINE HIGHWAYS

There is nothing in which Michigan takes greater pride than in her system of highways, roads and streets. This state has pioneered and leads the way, not only in the development and production of automobiles, but also in the construction and maintenance of highways on which to drive them.

### RIDING HORSES

Stables of fine riding horses are found at Elk Rapids, Bellaire, Aiden and Fisherman's Paradise, Mich. The trails are some of the most scenic in Michigan.

## DRIVING RANGE OPENS TONIGHT WITH 4-STAR PROGRAM

The golf driving range at Plum Hollow Country club will be officially and formally opened tonight with a big star-studded program and exhibition to which the public is welcome. Golf acts from Dixon and Oregon will give demonstrations and the lineup is as bright as the floodlights which illuminate the range. Only two golfers will tee off at one time and the lineup includes: Darrel Reis and Fred Reis of Plum Hollow, starting at 8:30. Each is an outstanding golfer and the latter smashed the Plum Hollow course record last Saturday afternoon. Next to appear will be George Joyce and Mrs. Gunnar Nilsson of the Dixon Country club. The latter is the women's champion at the club. Johnny Vrona, pro at Oregon and John Franklin outstanding High school golfer at Oregon will follow. Bill Witzleb, Plum Hollow champion of last season will be paired with Oscar Witzleb. In the windup Ken Detweiler and Ralph Stonehouse of the Dixon Country club will exhibit their talents. Ken is current Lincoln Highway champion and Pro Stonehouse recently qualified for the National P. G. A. tournament to be held at Denver to add to his already impressive string of outstanding golf achievements. Visitors at the range tonight will thus see some of the best talent of these parts on exhibition and it promises to be a brilliant evening.

## PLAYGROUND NOTES

Prince Castles of Dixon donated for cream to 185 playground children yesterday during the all-day picnic at Lowell Park. Director Mary Trombhold reported that of the 185 youngsters who enjoyed yesterday's outing, nearly all of them went in swimming. Tomorrow the playground staff will give instructions in tennis with lessons in the morning at the E. C. Smith courts and at the high school in the afternoon.

## WINDMILL TAKES LEAD IN BATTING AVERAGES

Worth Windmill demonstrated his "worth" last Sunday when he collected two hits (a double and a single) in four trips to the plate and jumped into the lead of the Knacks' batting averages. Windy thus disposed of Shires Miller who had been leading for several weeks but who slipped down to third place after Sunday's game at Peru. The boy who really took a leap was Rucker who jumped from eighth place to fifth on the strength of three hits. The team average went up three points in spite of the 13 to 6 loss to the Merchants. The complete batting averages to date in seven games played are as follows:

Player	Pos.	AB.	R.	H.	SH.	SB.	HR.	BB.	RBI.	Pct.
Windmill, c.	20	4	8	0	0	1	0	4	4.00	
Prestegard, lb.	8	1	3	0	0	0	0	0	.375	
Miller, cf.	28	7	10	0	3	1	3	10	.357	
Zera, ss.	21	2	7	1	1	0	1	4	.333	
Rucker, rf.	23	4	7	1	0	1	0	2	.304

## DIXON GOLFERS INVITED TO DE KALB

Dixon Country club golfers have been invited to play over the DeKalb course Saturday afternoon. The Saturday date was chosen to permit several who hope to play in the Lincoln Highway tournament to get a crack at the DeKalb course, scene of the annual event. Those wishing to play Saturday afternoon have been asked to notify Pro Ralph Stonehouse here as soon as possible.

## BORDENS BOW TO STERLING

Bordens softball team, member of the Dixon league, bowed to the No. 1 team of Sterling, the Boosters, on the winners' diamond last night, 4 to 3. Bordens collected five hits for their three runs and were chalked up with two errors. Sterling made 10 hits for four runs and played errorless ball. Heavy hitters of the Dixon boys were Don Bush with a double and a triple and Whitebread with a double. Bordens smashed the hosts in one inning with a brilliant double play from Thompson to Bush. Winning pitcher was Koster of Sterling and Johnny Jensen was on the mound for the milkmen.

## GOLF TOURNAMENT DATA

Dixon Country club players who wish to play in the Lincoln Highway tournament at DeKalb in July must first qualify over a 36-hole route on the Dixon course. It is expected that about a dozen members will try the tests. Only six are permitted on a team. Those wishing to play are urged to get their qualifying rounds completely early—and at least by July 6.

## DIXON WILDCATS WIN

The Dixon Wildcats softball team defeated the Rock Falls Sandpiper Pickers, 10 to 7, in a game here Sunday afternoon. The visitors led until the last of the sixth inning when Dixon began a scoring spree which netted seven runs to clinch the victory. Weigle and Myers did the pitching for the locals with Welty as catcher.

## THURSDAY GOLF EVENT

Members of the Dixon Country club will play in a special "Ball Sweepstakes," one of Pro Ralph Stonehouse's private concoctions on Thursday afternoon. The half holiday for business men is expected to boost the entry list in the event.

## NICE GOING, MICKEY

Laverne McMillon of Dixon rolled up 34 points with victories in the 220 and 440-yard hurdles, a second in the high hurdles, and third in the hop, step and jump when the DeKalb Teachers won the 40th annual Central AAU track meet in Chicago Saturday. With only nine men working under the NI banner, the DeKalb Teachers rolled high, wide and handsome with a total of 172 points. And in it all Mickey demonstrated that he is a good competitor when the going is really tough. He won the 440-yard hurdles in :57.5; the 220-yard low hurdles in :22.5 and was second in the 120-yard high hurdles which Smith of Champaign won in :15.4. In the twelve meets in which Mickey competed this year he rolled up a total of 105 points.

## ADDRESS DEPARTMENT

Among those from Dixon who were inducted into the Army last Wednesday it is reported that John Dixon is still at Fort Sheridan. John Grove, outstanding softball and basketball player, is located at Fort Polk, Louisiana and is in the Third Armored Division. Joe Murphy, another softball and basketball player of Dixon, is reported at the same camp.

## MAN AT THE MIKE

Tony Demian, athletic director at the state hospital, is the announcer at the Dixon softball games at the Airport—and he's doing an outstanding job of it, too.

## ENLISTS IN AIR CORPS

Ed Christman, Dixon high school graduate with the Class of '41 enlisted Monday in the U. S. Army Air Corps in Chicago and is reported to be on his way to Fort George Wright in the state of Washington. Ed was a member of the high school varsity football team in his junior year and band leader last season.

## EVERYONE WELCOME

Ken Detweiler, sports chairman of the Country club and in charge of the Homecoming Handicap tournament on the "Fifth of July," announced that all city players—members of Plum Hollow Country club or free lancers are welcome to compete in the event which is also open to visiting golfers.

# Three Deuces and Reynolds Win Softball Games Here

## FREEMANS BOW IN SPIKE OF ERRORLESS BALL

Nachusa Team Outhits Reynolds, But Errors Are Costly

LEAGUE STANDINGS	W.	L.	Pct.
United Cigars	4	0	1.000
Reynolds	2	1	.667
Three Deuces	2	2	.500
Nachusa	1	2	.333
Bordens	1	2	.333
Freemans	0	3	.000

GAMES LAST NIGHT  
Three Deuces 7; Freemans 5.  
Reynolds 13; Nachusa 4.

Although the Freeman softball team played errorless ball last night, the Three Deuces has a few wild cards in the deck and dealt the shoomen a 7 to 5 defeat in a "showdown" game at the Dixon Airport softball park.

The nighttime entanglement was called at the end of the sixth inning after the wiremen had the Nachusa boys screened out with a 13 to 4 count.

In the curtain raiser the Three Deuces scored first with three runs in the second inning when Drew and Littrell were walked and each scored after fly balls in to deep field. Gannon singled to center and scored later on a hit by Deebert.

Freemans scored four runs in the fifth. With one out, Cramer drove a double into left field and scored later on an error by the second sacker, Carlson was walked and scored on the same error. Kelchner beat out a bunt and scored later on an infield play. Pitman, who had been safe on the second baseman's error, scored later on a double to left field by Burke.

Bishop Gets Home Run  
The Three Deuces advanced their cause in the last of the same inning when two runs scored. Glessner singled to left field and scored on Bishop's home run into deep center field.

In the sixth the winners scored again on a similar play—this time it was Stewart who singled and Welty who clouted the homer into center lot.

In the seventh frame the Freemans made a valiant stand when Carlson slammed a home run into center field, but the inning ended without more ado.

Winning pitcher was Williams of the Three Deuces who permitted the Freeman team only six hits, walked five and struck out three.

Vivian did the hurling for the Freeman team and allowed eight hits, walked five and struck out four.

In the nighttime event the wiremen pulled away from the Nachusa boys with two runs in the first inning, one in the second and five in the third for a 8 to 0 lead early in the game. The wiremen counted one more run in the fourth and four in the fifth.

Only Five Hits  
Although the Reynolds collected only five hits, they took advantage of all the free trips to first and scored heavily on eight. Nachusa errors. The losers outhit the wiremen, 10 to 5, but were unable to make them count. Extra base hits for the winners included only Walker's double to center field in the second inning.

Weigle and Myers shared the pitching duties for the Nachusa team and Weigle walked six and fanned one. Fordham was the winning pitcher and he allowed the Nachusa team 10 hits, walked two and struck out six.

## PAIRINGS FOR 2-BALL MATCH ARE LISTED

Pairings for the first round of the Dixon Country club's two-ball handicap match play which must be completed by June 30, are made clearer to members in the form printed tonight.

The second round must be completed by July 7; the third round by July 15, the fourth round by July 22 and the windup by July 29.

The original printing failed to indicate the byes or the two-somes, and members of the club can better outline their plans for play-off in the following setup:

D. Sennett with Lee Shoaf vs. D. Raymond with Dr. Lazier

Fred Lewis with Ed Jones (bye)

H. E. Stuart with C. F. Calder vs. L. G. Rorer with Frank Rorer

Joe Miller with Eldon Myers (bye)

Jim Furlong with Willard Jones vs. Cal Tyler with John Torrrens

F. C. Kingsley with Victor Eichler (bye)

Mark Keller with B. C. Taylor (bye)

Ralph Coffey with Floyd Smith (bye)

Ken Detweiler with Darrel Reis vs. A. V. Lund with J. C. Graff

Bill Witzleb with George Joyce (bye)

George Beier with Warren Badger (bye)

Kent Stuart with L. J. Fontaine (bye)

Ray Wilbur with E. E. Barrowman vs. L. G. Cannon with Fred Huebner

F. Trautwein with Fred Hofmann (bye)

Leo Miller with C. A. Buchner (bye)

Carl Plowman with John Mills (bye)

ACQUIRED FROM SAN DIEGO PADRES, WHERE HE WON 25, LOSING 11....

THE NORTH CAROLINIAN STUDIED MEDICINE BUT HAS TRAVELED MORE THAN A BUSY COUNTRY DOCTOR... WAS ON ROSTER OF NINE MINOR LEAGUE CLUBS BEFORE CATCHING ON IN BEANTOWN....

umph over the White Sox on the effective, eight-hit hurling of Emil (Dutch) Leonard. Thornton Lee one of the League's best south-paws, tried to make a tight duel out of the battle, but was handicapped by four Chicago errors.

The Detroit Tigers nudged out the Athletics, 2-1, in a night game at Philadelphia with a run in the ninth inning on two singles and a fly.

## Continue Neck and Neck

In the National League the St. Louis Cardinals and Brooklyn Dodgers continued virtually neck and neck. The Cards crushed the Boston Braves, 13-1, in the afternoon with a 14-hit offensive and a four-hit pitching performance by Lon Warneke, who would have had a shutout except for a homer by Max West in the second.

The Dodgers struck back with an 8-0 victory over the Pirates in a night skirmish at Pittsburgh to keep within a half-game of the leaders.

The New York Giants whipped the Chicago Cubs, 5-1, and also cost the Bruins the services of Outfielder Hank Leiber, who was headed for the second time in his career. One

## Vick Reunion

The annual Vick reunion was held Sunday, June 22 at the school park with 80 present. A dinner was served at noon and afterwards a business meeting was conducted. Election of officers resulted in Mrs. Orville White being named president, Mrs. Ben Kruse, vice president, Miss June Vick, secretary. A program was given as follows:

Accordian solos by Lawrence Glafka; reading, "Neighbors," by Arthur Kruse; and a playlet by Mrs. Russell Edmondson and son Jackie. # Speaker

C. WAYLAND BROOKS

C. Wayland Brooks, U. S. Senator from Illinois, will be the principal speaker at the 16th annual convocation of the Illinois Grand Chapter, Order of DeMolay which will be held Friday and Saturday in Ottawa.

At least seven members of the Dixon chapter will leave early Friday morning to attend the ceremonies and the week end program of social activities. Robert Sanborn, local Master Councilor, will act as State Senior Councilor in the degree work and he is also a candidate for the state office of Junior Councilor. Others from Dixon who are expected to make the trip include: Harold Cook, Robert McNamera, Vernon Stein, Russell Eller, James Hoon and Bill Thompson.

Senator Brooks will fly from Washington to attend the convocation and will see his son take the degree work as a member of the class which is expected to total about 150 candidates.

The Ottawa convocation will be the biggest ever experienced by the Illinois Grand Chapter with Dave Heller presiding over the business meetings. Dan DeBaugh, Grand Master, A. F. & A. M. of Illinois will be the guest of honor. Included in the plans for the program are golf and tennis matches, swimming, boat trips to Starved Rock and a grand ball.

# MENDOTA

Mrs. Bertha Ossman  
311 Seventh Avenue  
Phone 266L
